

The Kingston Daily Freeman

VOL. LXIII—No. 95.

CITY OF KINGSTON, N. Y., WEDNESDAY EVENING, FEBRUARY 7, 1934.

PRICE FOUR CENTS.

One Billion in 1934 To Farmers Is Plan Of Farm Authorities

Amount Based On Proposed Control and Corn Loans as Hereafter American Farmers—Repayment Predicted on Returns From National Tax—\$200,000,000 of Same to Dairymen.

By STEPHEN J. McDONOUGH Copyright, 1934, by The Associated Press.

WASHINGTON, Feb. 7 (AP).—The plan of about a billion dollars to American farmers during 1934 as set-off payments for production control and corn loans is planned by the farm administration.

Official estimates covering the wheat, corn and hogs, cotton, tobacco, and corn loans programs were disclosed today to call for an estimated expenditure of \$766,512,695, and \$152,521,177 spent in 1933.

In addition an emergency fund of \$200,000,000 would be provided for benefit payments to beef and dairy cattle farmers in a bill passed by the house and favorably reported by a senate committee.

In addition, more payments to wheat farmers under a now-contingent second acreage reduction would bring the total well above \$1,000,000,000.

Officials revealed that only \$200,000,000 of this would be paid out of the treasury, if their plans carry through, the balance being due to come from processing tax receipts.

Repayment Seen.

Secretary Wallace even plans on repaying this sum out of the proposed processing tax on butterfat.

About \$356,310,440 of the total going to farmers will be paid out during January, February, March and April, under present plans—of which \$200,000,000 will go to corn-hog farmers of the midwest.

In May, June and July officials count on \$20,670,185 being spent; \$194,190,680 more during August, September and October, and \$108,598,730 more during November and December. A sum of \$47,932,610 also would be distributed throughout the year, but has not been allocated by periods.

Program Expenditure

According to the various programs now under way the total will be expended as follows: Corn and hogs, \$367,055,630; wheat, \$81,024,724; cotton \$173,220,620; tobacco \$34,415,000; corn loans \$109,796,721.

Of corn loans all but \$98,777 will be made to mid-western farmers, since practically all of the surplus corn available for storage under seal is in those states.

Mid-West and South

Farmers in mid-western states also will receive a lion's share of the wheat payments, \$52,683,161, while those in western states will receive \$20,255,415.

Southern farmers will receive \$152,232,220, or practically all of the money to be spent on the cotton program, and will receive most of the tobacco payments.

Meanwhile it was disclosed that farm adjustment officials have sent to the White House a projected amendment to the farm act, if approved by the President and adopted it would hand to the adjustment administration a weapon for rigid compulsion allowing the licensing of producers.

Officials asserted it was drafted with the idea of applying it only to regional crops, and that there would be no attempt to put it into effect with such major crops as wheat or cotton. They conceded, however, that if adopted it could be used if non-cooperators threatened one of the major voluntary control programs.

POSTMASTER GENERAL FARLEY IS GIVEN ANOTHER TITLE

Washington, Feb. 7 (AP).—Ring up another title for James A. Farley, postmaster general and chairman of the national and the New York Democratic committees. The new one is "Democratic Democrat."

He earned the award in the bar, her shop across the street from the post office building where he goes practically every morning for a shave.

Leonard Heineken, who 24 years ago came to the United States from Munich, Germany, says certain other postmaster generals, regardless of party, have been "autocratic" Democrats or Republicans, but that Farley is different: he's not "high-hat."

FOURTH ARREST MADE IN HIGHLAND RAPE CASE

A fourth arrest in the Highland rape case was made Tuesday, when George Rowley, 20, of Highland, was arrested and arraigned before Justice Walter Seaman. He furnished bail for appearance before the grand jury. Three others arrested Monday and also held for the grand jury were Herbert Robinson, Victor De Mare and Carlo Aiello, all of Highland.

Juvenile Fugitives Caught.

Albany, N. Y., Feb. 7 (AP).—Two juvenile fugitives, one of them with a frozen ear, captured yesterday in the Union station here, are to be returned today to the State Industrial School at East Avon, from which they escaped. Edward Olesowski, 14, of Dunkirk, had his frozen ear treated by a physician. The other, 14, is Charles Hommedieux of Bay Ridge, L. I.

Daladier Quits, Offer Former President Doumergue The Post

Announcement of New Government Being Formed Does Not Halt Hostilities—At Least Nine Persons Were Killed in Riots Last Night—Doumergue Coming To Paris To Talk Things Over—Martial Law In Force In Paris.

Paris, Feb. 7 (AP).—President Le Douarin today offered the premiership of France to Senator Louis Barthou, a former premier.

Senator Barthou was asked to succeed Premier Edouard Daladier, who resigned his post at 1:30 p. m. after being in office nine days in the face of threats of a renewal of the rioting which last night claimed the lives of at least nine persons.

Daladier's resignation was followed at 2:40 p. m. by his complete cabinet.

The announcement that Daladier was out after a nine days regime and a new government was in process of formation did nothing to temper the angry mood of the crowds which gathered at the two points which were the hot spots of yesterday's mad battles—the Place de la Concorde and the adjoining Rue Royale, the wide street which divides the ministry of marine from the Hotel Crillon as it leads into the Place de la Concorde.

Mounted guards, their horses whirling and stamping at their work, pushed their way into the great square where yesterday machine-gun bullets whined.

The horsemen formed a hollow square, attempting to beat back the crowd and disperse it from its gathering place.

The crowd gave like water hit by a rock and flowed back again just as relentlessly.

Policemen wearing glistening steel helmets combined into small groups and fought their way in short rushes into the assembling mob.

They made even less impression than the mounted men.

Then, enraged by the persistent tactics of the guardians of order, individuals in the mob picked up paving blocks and stones and started throwing them.

Mr. Barthou had a long talk with President Le Douarin and the two decided that, before M. Marthou

Assembly Democrats Seeking Compromise On La Guardia Bill

General Belief Is That New York's Mayor Will Not Consent to Any Changes and Others View Democratic Action as "Face-Saving" Gesture.

Albany, N. Y., Feb. 7 (AP).—Still unwilling to go along on Mayor La Guardia's economy bill, the Democratic members of the assembly today decided to make another effort to get a compromise measure.

After an hour's conference Assemblyman Irwin Steingut, Democratic minority leader of the upper house, would invite Mayor La Guardia to sit down with them to see if they could iron out their differences.

Some quarters regarded this move as a "face-saving" gesture on the part of the Democrats and believed that they would shortly switch their votes and pass the bill even if the mayor refuses to accept a compromise.

In view of the mayor's strenuous objection to amending the bill, it was believed that he would not consent to changes of any importance.

Governor Lehman's strong stand against any drastic changes in the bill is understood to have caused the Democrats to weaken in their opposition to the La Guardia measure.

"I don't see why we can't agree on a bill as the governor wants it," Steingut said.

The governor yesterday told the Democratic assemblymen that the only amendments he wanted were "safeguards" that would not change any of the essential features of the bill. In the light of this statement, Steingut's comment was interpreted as meaning that he was willing to go along with the governor.

State Liquor Profit Shown in Tax Figures

Albany, N. Y., Feb. 7 (AP).—Sale of liquor in the first 26 days since repeal returned New York State \$508,957.88 in tax revenue. State Tax Commissioner Mark Graves announced today.

Liquor, taxed \$1 a gallon, brought a total of \$458,229.88 while sparkling wines returned \$22,293.55 and still wines \$45,922.15. The tax on sparkling wines is 40 cents a gallon and on still wines 10 cents.

The sum of \$42,412 has been received as tentative payment. Commissioner Graves explained, making it impossible to determine yet whether it is for liquor or wine.

The commissioner also revealed that the total receipts from the tax on beer since it was legalized when it was \$4,082,274.37 and on 3.2 wine, \$7,415.25.

4th Ward Club Meets.

A meeting of the Fourth Ward Republican Club will be held at its rooms, 466 Deaware avenue, tonight at 8 o'clock.

Leniency of Police Saves Motorists Who Park Without Lights

Many Motorists Left Their Cars Stand in Darkness Without Lights But Were Not Arrested—Police Intend Being More Strict From Now On.

Evidently because of leniency on the part of the police, the drive to abolish parking without lights and leaving cars in the street all night with no means of illumination to warn motorists of their presence, netted no violations for arraignment in city court this morning, and the usual audience that gathers daily to hear the day's cases by Judge Bernard A. Callahan had to hold their anxiety until later to see whether the fine will be \$19 as provided by an old city ordinance adopted in 1879 when William Lounsbury was mayor.

The order to check on parking without lights was issued yesterday by Police Chief J. Allan Wood on recommendation of Mayor Conrad J. Heiseleman to whom various appeals have been made to put an end to the condition which furnishes hazards for motorists driving through the streets at night. Although the police intend to enforce the order strictly, it is presumed they were lenient last night to permit car owners who may not have heard of the order to learn of it.

The state motor vehicle law calls for lights on cars from one half hour after sunset until one half hour before sunrise. In this vicinity the sun rises now about 7:15 a. m., and sets about 5:15 p. m. Besides the state law, the police also have the old city ordinance to enforce which states that the streets must not be obstructed.

Despite no arrests, recorded for parking without lights, there were many motorists who left their cars stand in darkness last night, but were saved by the leniency of the police who intend being more strict from now on.

\$35,000 FIRE LOSS TODAY HITS HORNELL BUSINESS

Hornell, N. Y., Feb. 7 (AP).—Loss estimated at \$35,000 was caused early today by a fire which destroyed a three story building and seriously damaged two others in Hornell's business section.

The fire is believed to have started on the third floor of the building which was destroyed, housing a bowling alley and pool room, and spread rapidly. Firemen fought the blaze in near zero weather.

REV. R. L. MAUTERSTOCK TO PREACH HERE SUNDAY

The Rev. Robert L. Mauterstock, pastor of the Methodist Church at New Paltz, will be the preacher at the Clinton Avenue Methodist Church on Sunday evening at 7:30. The Rev. Mr. Mauterstock is well known in Kingston, having been the guest speaker at the Youth Council banquet held here last fall and was also the speaker at the Epworth League banquet held at the Clinton Avenue Church last November.

Treasury Receipts.

Washington, Feb. 7 (AP).—The position of the treasury February 5 was: Receipts \$22,474,966.93; expenditures \$50,861,995.43; balance \$4,281,407,369.38; customs receipts for the month \$4,508,259.91. Receipts for the fiscal year (since July 1) \$4,544,899,277.97; expenditures \$7,702,485,851.04 (including \$2,069,876,979.99 of emergency expenditures); excess of receipts \$842,413,426.63.

Father Murdock To Broadcast.

The Rev. George G. Murdock, formerly assistant at St. Joseph's Church, Kingston, and now rector of the Catholic chapel of the Most Holy Trinity at the U. S. Military Academy, West Point, will be heard over the radio at 7:30 this evening. He will broadcast over Station WJWL and his many Kingston friends will doubtless be glad to hear him at 7:30.

Store Filled With Smoke.

Heat from the oil burner in the basement of the building occupied by the uptown post office and Sweeney & Schenker, this morning set fire to a small piece of plank near the furnace. The store was well filled with smoke, but no further damage was done.

FINIS WANT ADS PAY IN KINGSTON FREEMAN

West Hurley, New York, February 6, 1934. The Freeman Publishing Co., Kingston, New York.

Dear Sirs:

I am enclosing 25 cents to pay for the Sewing Machine ad you ran for us last week.

Freeman want ads certainly bring results. There were several replies and we found just what we wanted. I'll say "it pays to advertise."

Thank you very much.

Very truly yours,

WILLIAM C. RUSSELL.

Wallkill Man Attacks "Dealer's Profits" At Milk Parley Today

Fred Biehl, Dairy Farmer, Advocates Change During Federal Marketing Agreement Hearing—Says Farmers Fighting for Very Lives—Cities Salaries Paid Officials.

New York, Feb. 7 (AP).—An attack upon "dealer's profits" as the crux of price discrimination in the New York milk market was made today by Fred Biehl of Wallkill, N. Y., a dairy farmer, at hearings on the proposed Federal milk marketing agreement for the New York-New Jersey area.

Biehl followed by Stanley W. Wynne, president of the New York-New Jersey Milk Institute, Inc., who as the representative of distributors was subjected to a barrage of questions from farmers and producers.

Testimony by Dr. Leland Spencer of Cornell University, whose recent survey for the New York Milk Board was made the basis of the Wynne's recommendations for lower production prices, was postponed until the hearing moves to Syracuse Friday.

Biehl, member of the farmers' national committee of action, declared: "We are fighting for our very lives and it will be some job to convince us we must take less for our milk."

Citing figures purporting to show that presidents of major milk companies in New York earned average salaries of \$25,000 in 1931, Biehl said "and then they would come here and tell us they need more profits."

"We are not out to make ourselves rich, in spite of what Dr. Wynne says, but we do insist on security and safety and the right to keep our farms from direct sales."

"We must direct our attack at the profits of the dealers. Is it more important to keep us on our farms or make more money for the dealers?"

Biehl said he was opposed to controlled production until farmers were assured of a "decent return" for their milk and declared: "We ask for a cancellation of those debts which have accumulated because our income has not permitted us to pay them."

ROBERT HAWKLEY FEATURED IN "RUDE RURAL RAFFETTES"

Robert Hawkley of Kingston is being featured in the second edition of "Rude Rural Raffettes" to be staged at the New Paltz High School auditorium Friday evening, February 23. The show and dance is sponsored jointly by the Ulster County Kappa Zeta and Holstein Clubs under the direction of Orson Beatty of Kingston. The proceeds will be divided equally between the two clubs.

In addition to Mr. Hawkley there will be eight other outstanding acts followed by dancing to Paul Zucca's orchestra. The entertainment promises to be still better than the great success last year. Tickets are available through members of both clubs or at the Farm Bureau office in Kingston.

BUSINESS HOURS EXTENSION FOR LIQUOR STORES DISCUSSED

Albany, N. Y., Feb. 7 (AP).—Extension of business hours for retail liquor stores is among many proposed amendments to the alcoholic beverage control law before the legislature.

A bill introduced by Assemblyman Patrick H. Sullivan, New York Democrat, provides retail stores may be open daily except Sunday from 9 a. m. to 10 p. m. and on Saturday from 9 a. m. to midnight, two hours longer than now permitted.

SPANISH CAPTAIN INJURED IN RIOT WITH STUDENTS

Madrid, Feb. 7 (AP).—A captain of the Spanish Assault Guards was shot and seriously wounded today and several persons injured in a clash between Leftist members of the students' federation and police.

Students had demanded liberty for three members pardoned for disorders during a recent student strike but who had not been released from jail.

Hurley P.T. A. Meeting.

The regular monthly meeting of the Hurley Parent-Teacher Association will be held at the Hurley School on Friday, February 9, at 3 p. m. Founder's Day will be observed at this time with a brief but appropriate program. The entertainment that was previously planned for Friday evening to observe Founder's Day and father's night has been postponed until March 2.

Anglo-Soviet Agreement.

London, Feb. 7 (AP).—An Anglo-Soviet trade agreement is expected to be signed in London in about a week, it was learned today at the foreign office. It will be a general treaty covering all phases of trade relations. Russian and British officials now are in daily contact arranging the text in both languages.

Man Found Frozen.

Saratoga Springs, N. Y., Feb. 7 (AP).—Summoned by neighbors who became alarmed at his prolonged disappearance, police today found the body of Dominick Piesiewicz, 41, a recluse, in his home, frozen to death.

Card Party at Central Station

There will be a card party at the central fire station of East O'Reilly street tonight and a large attendance is expected.

Appropriated \$60,000 To CWA, And Boulevard Rights of Way Approved

Common Council Tuesday Evening Made Appropriation for Purchase of Materials to be Used on Projects—Approve Public Works Board Prompt Action on Boulevard—Other Matters Before Council.

The prompt action taken by Mayor Conrad J. Heiseleman and the board of public works in obtaining additional rights of way for the construction of the Boulevard after the board had been notified by the state highway department that the Carey administration had failed to take action, was approved by the common council Tuesday evening when the council unanimously authorized the board to acquire the lands needed.

The aldermen also unanimously granted the request of the local CWA for an appropriation of \$60,000 required for material costs for January and February. The CWA in a report to the council stated that to date it had expended the sum of \$62,060 for materials and that the government to date had paid out the sum of \$137,983.38 in wages in Kingston.

Boulevard Rights of Way

The board of public works met in special session before the council last Tuesday evening to discuss the acquiring of rights of way needed for the completion of the Boulevard. Following the board meeting the board filed the following communication with the council:

The M. A. Gammino Construction Co. was awarded a contract on October 27, 1933, by the New York State Highway Department for paving the Boulevard, the plans of which necessitate the acquiring by the city of additional parcels of land for rights of way.

The State Highway Department, under date of January 26, addressed a communication to the mayor, stating that unless those rights of way were acquired or arranged for by February 12, the contractor would request release from this contract.

The Board of Public Works is glad to report that during the past week deeds, agreements or rights of entry have been obtained covering all rights of way necessary to finish this road. The contractor is now free to start the work as soon as he desires, weather conditions permitting. The only step now remaining is for your honorable body to authorize the acceptance of these deeds and agreements.

We therefore request that the common council authorize the acquisition of the rights of way as covered by the attached deeds and agreements, with and in consideration of the amounts indicated:

Herman Richter and wife, \$1.
William Lawton and wife, \$1.
George W. Moore and wife, \$1.
Arthur Vandemark and wife, \$25.
Anna Hyde, \$1 and restoring wire fence and steps.

Construction agreement: Louis A. Bowers and wife, seeding embankment and moving garage.

Rights of Entry

The above named residents of the Boulevard have cooperated in every way in our attempt to insure the completion of this road. They have conveyed to the city these parcels of land at the prices and considerations indicated in a spirit of public service, realizing the necessity for cooperation and quick action. They have earned the thanks of every taxpayer in the city.

Rights of entry agreements have been entered into between the city of Kingston and Arthur Johnson and Raymond Tillson and wives, covering one parcel or parcels, and Morris and Anna Gruber, covering other parcels. These agreements give the right of entry to the contractor to proceed with the work, with the promise of adjustment in the future, either by purchase or condemnation.

We attach hereto a certified copy of a resolution adopted by the Board of Public Works, adopted at a meeting of that board held on February 6, 1934, authorizing the contracts described herein.

We request that your honorable body ratify and confirm the action of the Board of Public Works authorizing the entering into the city of Kingston of the contracts described in this resolution.

Board of Public Works

The labor and material necessary to carry out the terms of the Hyde and Bowers agreement will be supplied either by the Board of Public Works or the CWA.

Council Takes Action

The board of public works was authorized to acquire the lands needed when the following resolution was unanimously adopted:

Whereas the N. A. Gammino Construction Co. was awarded a contract on October 27, 1933, by the New York State Department of Public Works, for paving the Boulevard, the plans of which necessitate the acquiring by the city of Kingston of additional parcels of land for rights of way.

Be it resolved that the Common Council be requested to authorize the acquisition of rights of way necessary for the completion of the Boulevard.

The State Conference of Mayors has voiced approval of the bill.

Bill Which Would Prohibit Property Owner From Fighting Over Assessment Is Called "Vicious Legislation" By Secretary of Real Estate Group.

Albany, N. Y., Feb. 7 (AP).—The State Mayors' Conference and the State Real Estate Association were at odds today over a measure which proposed restriction of appeal by property owners in connection with assessed valuations of real estate.

The bill, sponsored by Senator William T. Byrne, would prohibit a property owner from instituting court action for reduction of assessment solely on the ground of overvaluation.

At a public legislative hearing yesterday the measure was termed "vicious legislation" by Ray Hofford, secretary of the Real Estate Association.

Hofford said that not one piece of property of ten in the state was producing sufficient to carry it.

"The measure seeks to put one more shackle on the harassed and over-burdened owner and tighten the grip of the tax collector," he said.

The State Conference of Mayors has voiced approval of the bill.

Flashes of Life Sketched in Brief

By The Associated Press

Meet The Mrs.

(Chicago) For two weeks past Mrs. Helen Rosenthal complained that her husband never related to her the way he used to. She was formerly known to address her husband as "Mr. Rosenthal" and now she called him "Mr. Rosenthal" which was a new name to her.

Why Bertha
Ashland, Neb. Bertha the horse wandered away from home three weeks ago.

Yesterday, Lawrence Stenberg, living near the home of Al Nelson, Bertha's master, went to the Stenberg farm to get some potatoes. He didn't get them because there was Bertha, wedged backwards in the cave entrance to the potato house. How long Bertha had been in the cave is not known.

Mental Cruelty
Denver. If a husband neglects to kiss his wife or fails to hold her chair while she is seated, her husband is guilty of mental cruelty. Judge Otto Back ruled on the strength of those charges he granted Mrs. Margaret G. Wiggins an interlocutory decree of divorce.

Action, Not Words
Seattle. Census taking, even by CWA enumerators, isn't all just asking questions.

J. J. Goodell, director here, reports a frantic mother greeted one of his men telling him her small child had swallowed a penny. "The man, however, quickly held the child upside down, gave it a smart slap on the back—and out dropped the penny," said Goodell.

Why Not Knit
Ottawa—The decision of Speaker George Black to stop women knitting in the gallery while listening to debates in the house of commons was taken as a blow at the yarn making industry by one company. It wired its member in the house protesting against the "gallery knitting ban."

Dominion Dishes Dumb Dora
Philadelphia—The Presbyterian Ministerial Association adopted a resolution requesting newspapers to eliminate all pictures and articles about "dumb Dora." Motion picture stars, racketeers and other "vulgarities of society" were included in the request. But the association did not commit itself as to who might be a "dumb Dora."

Peace Officer
Manhattan, Kas.—Captain William A. Swift, instructor in military training at Kansas State College, was invited to join a student peace club opposing the training. Asserting he belonged to the "greatest peace organization in the country—the army"—the officer accepted.

Unblessed Event
Pittsburgh—Peter Hazen, 18, was pushing a baby carriage built for twins along the Beechwood Boulevard at 2 o'clock in the morning. Two kindly policemen in a scout car stopped and asked him whether they could be of assistance. He replied no, but they lifted the blanket on the carriage and, sure enough, they said, they found "twins"—two five-gallon cans of alleged moonshine whiskey.

WHITFIELD
Whitfield, Feb. 7.—There will be a musical and a comedy given by home talent at the Reformed Church basement Friday evening, Feb. 9. A small admission will be charged at the door. Proceeds for the church and everyone is invited to attend.

Mr. Barry of New York is spending a few days' vacation at Woodbrook Cottage.

Mrs. Rose Hornbeck and Miss Minnie Hornbeck, Mrs. Jacob H. Baker spent the day last Tuesday with Mrs. Oliver Baker and Mrs. Tracy Baker.

Mrs. and Mrs. Haviland Barley, Mr. and Mrs. Treedie of Kingston spent Sunday with Mr. and Mrs. DeWitt Barley.

Lester Snyder, Clifford Miller and Albert Barley spent Sunday at Saugerties.

ALLIGERVILLE
Alligerville, Feb. 7.—Mrs. Harold Wilson of St. Louis, who is spending the winter months with her mother, Mrs. Sleen, at Olive Bridge, spent Sunday with her uncle and aunt, Mr. and Mrs. Jacob Steen.

Frederick Lapp successfully passed his examinations and is now a student of Kerhonkson High School.

The members of the Alligerville Ladies' Aid Society were entertained at dinner Thursday by the ladies of the High Falls society. The gathering was held in the basement of the church and a very happy day was spent.

Mrs. Peter Harp and mother of New Paltz were callers in this place Sunday afternoon.

Oxygen Treatment
And you'll feel like a billion

Stomach aches, gas, flatulence, indigestion, constipation, loss of appetite, nervousness, depression, all due to lack of oxygen in the blood. Do you want to feel like a billion? Then get the Oxygen Treatment. It's the only treatment that gives you the oxygen you need. It's the only treatment that's safe and sure. It's the only treatment that's easy to use. It's the only treatment that's affordable. It's the only treatment that's available everywhere. It's the only treatment that's guaranteed. It's the only treatment that's recommended by doctors. It's the only treatment that's used by millions of people. It's the only treatment that's the answer to all your stomach troubles. Get it today from your druggist.

The WORLD of STAMPS

By W. J. JAMES

For two weeks past the swastika, of which the world has heard so much, has been used as the central design in a series of German stamps.

The particular stamp in question is a 12 cent stamp, ranging from 1 to 10 pfennigs. The swastika is enclosed in a circle of white, with the value of the stamp placed in the upper corners. Beneath the swastika in two rows are the words "Deutsches Reich" (German Empire). On all but the 10-pfennig stamp the swastika is of the same color as that of the stamp. On the 10 it is black.

Road to Health

The road to health, leading toward the east and its brilliant sunrise, is shown on this year's issue of New Zealand as an aid to the campaign for good health. Besides the one penny for postage, an additional penny charge is assessed as a contribution to good health benefits.

The stamp, carrying in color, is the fourth in the series that has been issued annually since 1929. Last year's stamp depicted Hygieia, the goddess of health.

New French Stamps

Nine pictorial stamps, intended to vary the figure of Marianne, symbolizing the republic, will comprise a new issue by France. They include symbols of peace as well as designs for domestic inspiration.

The 1.50-franc stamp for use on foreign mail will have a peace dove trailing an olive branch from its beak, while the 50-centime stamp for domestic letters will bear a gallic cock.

Other stamps will picture seven scenes of France, with Eiffel tower on the 40-centime, the Invalides dome of Paris on the 1.75-franc, Breton river on the two-franc, Saint Tropez on the three-franc, the towers of Carcassonne on the five-franc, City Island in the Seine, with Notre Dame cathedral, on the ten-franc and the ancient relics of Saint Remy on the 20-franc.

This change in French stamps began recently with the appearance of the heads of Briand, Victor Hugo and Doumer on new issues.

Bi-Lingual Stamps

Observant collectors soon discover that there are a number of stamps which bear inscriptions in two or more languages, known as "bi-lingual" or "quadri-lingual," depending upon the number of languages used.

About the only bi-lingual stamp, that is, where an issue is put out in two languages, are those of South Africa. One set is in English and the other in Afrikaans.

The quadri-lingual stamps come from the Transcaucasian republic, each stamp bearing information in Russian, Armenian, Georgian and Azerbaïdjan. Stamps of Belgium always have the name of the country in both French and Flemish, while Canada prints "postage" in English and French.

On February 5 at the Y. M. C. A. a very interesting meeting of the Colonial City Stamp Club met with 18 present. On account of the illness of Mr. Clapp the vice president, H. Rigby, Jr., presided. One member of the club offered a prize to the member bringing in the greatest number of new members.

A. Raschke gave a very interesting talk on the workings of the post office department. The next meeting will be held on February 19.

Former Russian Empire
Now States, Republics

The former Russian empire is now divided into a large number of states and republics with varying shades of autonomy. These group themselves into federations, which in turn unite to form the Union of Soviet Socialist Republics.

The members of this union are the following:

- 1—Russian Socialist Federal Soviet Republic. This is Soviet Russia proper. It includes 40 former provinces of European Russia, three provinces of the northern Caucasus and the greater part of Siberia. Its component parts now are ten autonomous Soviet republics, thirteen autonomous areas and three independent territories.
- 2—White Russia, comprising the six eastern districts of the former Polish provinces adjacent to the boundary of Poland.
- 3—The Ukraine, including one autonomous state.
- 4—The Transcaucasian Federation of Soviet Socialist Republics. This is a group of three republics and two autonomous areas in Transcaucasia. It formerly had as a neighbor a federation of the three other Caucasian states of Georgia, Azerbaijan and Armenia. These separated and are now independent members of the Union.
- 5—Georgia, 6—Azerbaijan, 7—Armenia.
- 8—Turkoman Socialist Soviet Republic. This state and its neighbor, Uzbek, are the result of a regrouping along racial lines of the old states of Bokhara and Khiva. 9—Tajik.

ONE DAILY PATTERN

Smart Pajamas

8123. Perky sleeves in comfortable shortness and broad revers are outstanding features of this pretty model. The trousers have fitted lines at hips and waist and pleasing fullness at the lower edge.

Satin is suggested for this model with contrast in the revers in the sleeve facings and sash. Cotton crepe or velvet may also be used.

Designed in 6 sizes: 14, 16, 18, and 20 (with corresponding bust measure 33½, 35, 36½, 38) and 40 and 42. Size 16 requires 4½ yards of material of 35 inches wide. The sash of ribbon requires 2½ yards.

A pattern of this illustration mailed to any address on receipt of 12c in coin or stamps by the Pattern Department, The Freeman, Kingston, N. Y. Be sure to state the size wanted.

Book of Fashions, 1934.

Send 15c in coin or money order for our new and fascinating Pattern Book, showing the way to a complete wardrobe of new things, simple and inexpensive to make, also hints to the Home Dressmaker.

KRIFFLEBUSH

Krifflebush, Feb. 7.—Tuesday evening, February 13, is the date set for the Valentine box social and free entertainment. The first act is "Zekiel Pops the Question," the second is "Pat Holligan's Bet" and the "Mock Marriage in Rhyme" starting at 8 o'clock. During the evening homemade ice cream will be on sale.

Church services every Sunday at the usual hour, 2:30. Sunday school at 1:30. Harvey Connor, superintendent. Everyone is invited to attend these services.

Mr. and Mrs. Elmer Van De Mark and Gladys and Milford spent Sunday afternoon in Lyonsville.

All are glad to hear Mrs. Howard Van Aken is improving at the Benedictine Hospital. All hope she may soon be at home.

A few from this place spent Saturday in Kingston.

Edward Franz has employment in Kingston.

Fashions by Eleanor Gunn

Furs to Flatter, But Not to Fret

New York—So many women are impatient for even for spring, that designers have concentrated on making them far more comfortable. There is a tendency to use fur away from the collar line. It may trim the collar, but is not used where the collar comes in contact with the neck.

The new line, a favorite through the winter, is being carried on. There are any number of costumes with broad effects, as for instance, the one shown which is not a hood at all, just a suggested one caused by the placement of the fur.

There are many deserving ways of using fur just now, and a bit later when fur coats are cumbersome, there are plenty of cloth ones, suits too, that have the bit of fur which is seasonable and so kind to most women.

The coat dress, usually, but not always, of cloth is completed by short fur capes or worn with a harness arrangement of sables, martens and so on. Galyak and flat furs generally are also in demand for the between season coat, which brings to mind that there are many good looking dresses on which galyak appears in the form of bib, reverse or collar.

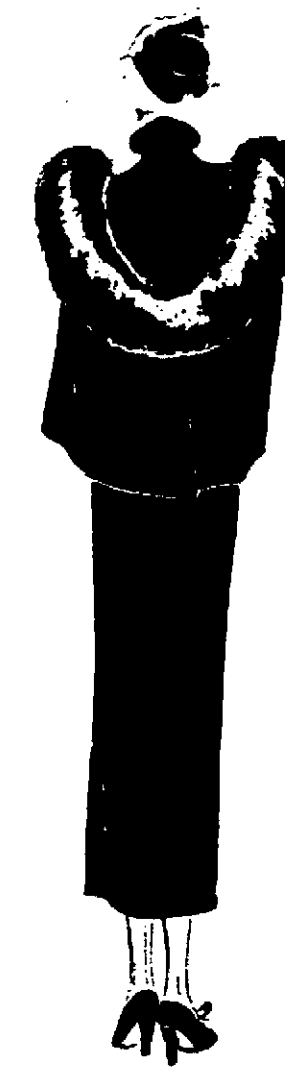

Many chic women wearing black dresses the greater part of the time, use black galyak for a trimmings, leaving the contrasting neck fixings for the masses. There are also those who are staunch believers in white with black and who hold that a bit of white under the chin takes years off a woman's age.

Wait and see how many separate fur pieces of one sort or another the spring will bring out—and how many capes, fur and otherwise, are merely waiting for their entrance cue.

Fur—But Away From the Face

Women prefer to wear spring coats that introduce the fur away from the face. When the weather gets warm, collars dip down at the back and reverses ripple into soft contours. There is little of the muffled effect that characterized winter coats except in detachable furs, where the idea that the trim-

IN GRACEFUL RETREAT

(Copyright, 1934, by Fairchild)

This coat introduces a separate cape over a furless black coat of crepe wool. The fox is applied in dipping line at the back and ties below the standing collar in front.

ming may be worn in several ways is emphasized. High necklines are endorsed for the coat with attached fur, but they are built up through the fabric of the coat and not by fur.

WALKER VALLEY
Walker Valley, Feb. 7.—Mr. and Mrs. Milton Scott and family called on the former's sister, Mrs. Mary Vandermark, Sunday afternoon at Prospect Hill.

Miss Elouise Kirby sprained her ankle one day last week.

Mrs. J. C. Depew, who fell and hurt her hip quite badly recently, is recovering slowly.

Mrs. Harry Gath of Montgomery spent Tuesday with her parents, Mr. and Mrs. William Hampton.

Charles DuLucca has moved from Shingle Cottage.

Mrs. E. E. Morrow received word from her daughter, Mrs. Charles Mack, that she is gaining in health at Fort Myers, Fla., and that the family is enjoying the fine weather and fishing.

Miss Rose Stryke is suffering with neuralgia in her teeth.

A P. T. A. meeting is to be held February 9. The children will en-

tertain and give a few short plays in honor of Lincoln, St. Valentine and George Washington. Plans also are being made for some way of making money for awards to be given at the close of school in June.

Elks Plan Entertainment

The house committee of the Kingston Lodge of Elks has arranged for this Thursday evening a program of vaudeville entertainment and an orchestra. This program will start immediately after the meeting which starts at 8 o'clock. Refreshments will also be served. All members are requested to attend the meeting as a very important discussion will take place.

CARD PARTY

Given by Esopus Community Club at Red Men's Hall, Esopus, N. Y. FEB. 9, 1934, 8 o'clock. Admission 35 cents

Presbyterian Church Destroyed By Fire

New York, Feb. 7.—Fire destroyed the Shelter Island Presbyterian Church last night.

Help from the mainland was unavailable because of heavy ice which has kept a ferry inactive for a week. There had been no fire in the heating plant of the church since Sunday, the janitor said.

According to Walter Hanson, of Shelter Island Heights, the fire was discovered at 8:30 p. m. and had gained such headway when flames arrived that they concentrated on saving the parsonage which adjoins the church.

Firemen of the Darin Harbor, Shelter Island Heights, and Shelter Island companies answered the alarm. There is no water system and as the church was located near the center of the island water was obtained from cisterns. The fire had burned itself out at 11 p. m.

Dawson was uncertain about the age of the church but said it was a prominent landmark and was erected many years ago.

BEARSVILLE

Bearsville, Feb. 7.—Harford Reynolds is ill with rheumatism.

Ex-road Commissioner Theron Lasher is having the barn on his farm taken down. This is one of the old landmarks of the village.

William Rosenwald had the misfortune to lose a very valuable dog last week.

About 40 representatives of Bearsville Lodge, I. O. O. F., and Asapae Rebekah Lodge attended the reception and banquet held at the Governor Clinton Hotel, Kingston, last Wednesday evening, in honor of Grand Master John W. Le Sena.

Janet Cochrane underwent an operation for appendicitis last Friday morning.

Mrs. Irene Longendyke of Woodstock called on Mrs. Lillian Lasher Sunday afternoon.

Mr. and Mrs. Busch of Flushing, L. I., paid a flying visit to their sum-

mer nurse here recently. Robert Cunningham of the observation camp spent Sunday with his mother, Mrs. Clara Cunningham. Mr. and Mrs. C. F. McDonald are spending a few weeks in New York city.

Mr. and Mrs. Roy Constant have moved to Kingston.

J. J. Rose is building an addition to his house.

EAT WHAT I LIKE AND TAKE BELL-ANS WHEN FOOD DISAGREES

Approved by the best physicians as the only reliable remedy for indigestion, constipation, flatulence, gas, heartburn, acid, and all other ailments of the stomach and bowels. It is a natural, harmless, and effective remedy. Bell-ans is made from the most pure and refined ingredients. It is the only remedy that is safe for all ages and conditions. It is the only remedy that is guaranteed to work. It is the only remedy that is recommended by doctors. It is the only remedy that is used by millions of people. It is the only remedy that is the answer to all your food troubles. Get it today from your druggist.

WHY CAN'T I MAKE FRIENDS

Poor little Secretary, she was Friendless, Unpopular—UNTIL a bit of Friendly Advice from the Hostess of a Girls' Club helped her...

IT'S THAT QUESTION OF PERSPIRATION ODOR IN UNDER-THINGS. TELL ME, DO YOU LUX YOURS EVERY DAY?

OH, MRS. CARSON, I DON'T! BUT I'LL NEVER BE CARELESS AGAIN.

THAT MIGHT

HOW DREADFUL TO THINK I'VE OFFENDED THAT WAY. I KNOW LUX TAKES AWAY PERSPIRATION ODOR, YET FROM NOW ON I'LL LUX UNDER-THINGS AFTER EACH WEARING.

SEVERAL MONTHS LATER

OH, MRS. CARSON, THIS IS TED—WE'RE JUST GETTING UP A PARTY.

OH, MRS. CARSON, THIS IS TED—WE'RE JUST GETTING UP A PARTY.

AVOID OFFENDING

Underthings absorb perspiration odor. Protect daintiness this way...

Don't let perspiration odor in underthings spoil your popularity. We all perspire, and underthings absorb perspiration odor, but we needn't offend others.

It's so simple to Lux underthings after every wearing! Lux takes away odor, yet saves colors. Ordinary soaps often contain harmful alkali which fades color and weakens silk. Lux has no harmful alkali, and with Lux there's no injurious cake-soup rubbing. Anything safe in water is safe in Lux.

LUX removes perspiration odor from underthings—Saves colors

Smart Wash Prints for Home Sewing

By CHERRIE NICHOLAS

COMES now the season when fancy, or is it stern duty, turns to thoughts of getting the household sewing done and out of the way before yielding to the magic spell of spring days which entice to the joys of the great out-of-doors.

Lacking inspiration, we suggest that you make the rounds of the wash fabric displays which are gloriating the aisles of all up-and-doing dry goods establishments these days. See what happens! An urge to buy and buy to the limit of your budget will take possession of you and your plans for home-sewing will mount sky-high with enthusiasm. It's worth trying.

In some unexplainable way the prospect of doing the family sewing is apt to take on a sudden lure and glamor as one fondles the lovely new waffle piques which are so prominently displayed this season, likewise the smart twin-print dimities, the dainty crinkled organdies in pastel colorings, also the plaided cottons which make such smart shirt-waist frocks for the important-minded Junior Miss, and the perfectly fascinating sheer batistes, handkerchief linens and swisses and point d'esprit nets which tell you at first glance their mission is to be made up into party frocks which will go dancing and frolicking through happy spring and summer days.

Assuming that "children first" is mother's slogan when the sewing campaign begins, a few hints and suggestions as to the general trend of juvenile fashions may be welcomed at this time. For instance, it might help a bit to know that dresses of the heavier practical cottons such as broadcloth and the very attractive calico prints and percales go in decidedly for school-girlish effects this season.

A dress which answers to the call

for utmost simplicity and one which accents the charms of the growing girl because of its bright red and white coloring, its big bow tie and its wide turnover collar is shown to the left in the trio of pretty wash dresses pictured. Dressmaking items to take note of in the other schoolgirl dress is the fact that the skirt is gored, the shoulder line is broadened by means of sleeves which have extended pleats while the collar buttons at each shoulder with one tie-end pulled through a loop in the unique manner illustrated. And now while we are upon the subject of practical print wash dresses suppose we consider the needs of big sister as well as those of the little school-faring members of the household. The favor for daisy motifs so pronounced last season bids fair to continue this spring and summer. The daisy print employed for the dress on the young woman standing to the right in the picture is ever so attractive in its fresh springlike coloring of white and yellow flowers on a lettuce green background. The majority of the new wash dresses are fashioned with gored skirts as is this one. Pointed-at-the-top sleeves give breadth to the shoulders. The surprise collar takes on a rather wide organdie ruffling which is joined to the daisy print with a tiny lace beagling which suggests fagoting.

ANGORA DOMINATES IN WINTER APPAREL

Shirt, Three-Quarter Length Coat Popular.

You can't go far this winter without your hand of angora, be your sporting, sedentary or just a tired little house body. A combination of the smart fashions are appearing in a shirt and three-quarter coat of a nice combination angora and tweed (like regular tweed with a fuzzy surface) and a sweater blouse of pink angora wool. This has clear crystal buttons straight down the front and a soft bow tie at the throat just under the chin. The sweater is worn over the shirt and comes to the hips. A narrow belt confines it to the normal waistline. The coat has deep square pockets, wide cuffs and a simple turn-back collar with one end becoming a scarf which wraps the throat or hangs down at the side. The hat to accompany is a soft, crush felt with a crystal ornament part way up on the crown to the left front. It has a two-inch brim which rolls slightly on the sides.

LUSTROUS SATIN

By CHERRIE NICHOLAS

Satin continues in high favor as a medium for evening gowns. The model pictured is fashioned of wine-colored satin with lustrous sheen. It is unique in that it has underarm insets of pale pink satin. The jewelry of aquamarines and diamonds in pendant, ring and bracelet is marvellously set off by the rich wine color of the satin for a background.

Mrs. Roosevelt's Inaugural Gown Placed in Museum

The Eleanor blue crystalline velvet costume which Mrs. Franklin D. Roosevelt wore for the inauguration has now been placed in the Smithsonian institute in Washington, along with the inaugural gowns of the wives of Presidents who preceded her.

Mary Todd Lincoln was the only other President's wife to wear a velvet inaugural dress. It was considered a most extravagant and expensive costume at that time—the height of elegance and the last word in luxury.

Mrs. Roosevelt's gown, simple, almost plain, shows the great change that has come in our world of fabrics. Velvet still is considered the most elegant and most luxurious, but certainly not the most costly, since the fabric of which the dress was made is available to any woman in moderate circumstances.

STYLE NOTES

New necklines stress hood collar.

Ruffled cuffs adorn both fabric and kid gloves.

Fashion declares in favor of square necklines.

Rhinestone hooks and eyes make attractive fastenings.

The off-the-face hat is a theme of interest to milliners.

Flowers close up under the chin is fashion's latest whim.

Sequin-embroidered triangles grace the necklines of otherwise simple crepe dinner gowns.

Spring Suits to Feature a Nipped-in Waistline

Suits cut on a new line nipping in at the waist are offered by Lorette for spring.

The new models, of beige tweed and light blue wools, display two lengths—one extending well below the hips, the other ending at the hipbones. Both are designed to snug the waistline and give a slight flare to the lower part of the skirt, indicating a "slender waist" decree for the coming spring mode.

Woolen Pompons

Wool pompons are a current specialty. They are seen on the belt of bloused wool dresses. A trailing cocktail gown has a pair of these woolen balls.

Life of Oriental Moth

The oriental moth, accidentally imported from Japan, requires a year to complete its life cycle in this country, while in Japan some individuals of the species develop so rapidly that they give rise to two generations in a season.

Really a Snappy Bathing Suit

MAYBE it won't feel so good to Miss Mabelle Petit of Boston (center) when Doris Pritchard and Marjorie Brooker let go of Mabelle's bathing suit; for it is made of rubber and has plenty of snap to it. They are all frolicking at the Beach Cabana club pool in Miami Beach, Fla.

I wouldn't mind salads every day if they tasted like this.

I've switched to Thousand Mayonnaise. That's why the salads are so good.

And here's how she made the salad that made such a hit with her friends: 1/2 cup Thousand Mayonnaise, 1/2 teaspoon salt, 1 cup grated raw carrots, 1/2 cup pecan meats, finely cut, 1 cup canned pineapple, diced and drained. To mayonnaise add ingredients in order given. Serve on crisp lettuce. Garnish with whole pecan meats. Serves 6.

"Little Stories for Bedtime" by Thornton W. Burgess

BUSTER BEAR IS PIGGISH

NOW, wouldn't you suppose that when there is plenty for everybody, everybody would be content and happy? But often, altogether too often, it isn't so at all. The more folks have, the more they want. And there are other folks who, no matter how much they have, seem to think that others may be having something better, and instead of making the most of what they have, go about trying to get what their neighbors have.

It seemed, it really did, that there

"These Nuts Are Mine, All Mine," He Roared.

were enough of those queer three-sided little brown nuts under the beech trees for everybody to have all he could eat, and that that beech-not picnic that beautiful October morning should be the merriest, happiest kind of a picnic. But it wasn't. No, sir, it wasn't. The reason was the piggishness of Buster Bear.

When Buster arrived under the beech trees and saw so many others gathered there for the very same purpose that had brought him there, he right away let selfishness get the best of him. He was greedy, was Buster Bear. He was so greedy that he

couldn't bear to see anyone else get a single one of those little brown sweet nuts, although he knew well enough that he couldn't eat all of them to save his life. Right away he began to growl, and you know his growl is deep and grumbly-rumbly and not at all pleasant to hear.

Those who were nearest him moved off a little farther, but went right on picking up those brown, sweet little nuts. Buster Bear growled more and his growl was deeper and more grumbly-rumbly. All the other little people looked at him anxiously, but kept right on hunting for those brown sweet little nuts. Then Buster Bear quite lost his temper.

"These nuts are mine, all mine," he roared. Then he ran at Lightfoot the Deer. Lightfoot bounded away, but not far. He knew that Buster Bear could not catch him, and he had no mind to leave those nuts. Then Buster rushed at the Gobbler family and all the Gobblers scurried away, each in a different direction, but they didn't go far. Then Buster rushed this way and rushed that way wherever he saw anyone picking up nuts.

Mrs. Grouse merely darted behind a fallen tree and the minute Buster's back was turned she was scratching over leaves in search of nuts again. Sammy Jay and Redhead the Woodpecker merely flew up in a tree. Chatterer the Red Squirrel and Happy Jack the Gray Squirrel and Unc' Billy and Mrs. Possum climbed the nearest trees. But they were back on the ground again as soon as Buster had turned away.

Peter Rabbit, who was hiding near to see all that went on, had to laugh. He couldn't help it. There was great big Buster Bear so piggish that he wanted all, yet getting hardly a taste because he was spending his time chasing his neighbors. It often is that way with piggish people. In trying to get more than their share they fail to get what they might have as well as not.

B. T. W. Burgess—WNC Service.

Medical science has until recently regarded jealousy as a defect of character that is incurable. Psychologists have now come to the conclusion, however, that jealousy is a disease, with the same general characteristics as other diseases. Jealousy is a mixture of fear, envy and weakness. It is just as uncontrollable as love, which comes and goes without any conscious effort of will. The only difference between love and jealousy is that whereas love is incurable, jealousy can be treated by means of psychotherapy. The basic cause of jealousy is discovered by means of exhaustive psycho-analysis and after this a complete cure can be effected in most cases. The jealous person is given hormones and is otherwise treated in the same way as a chronic dipsomaniac.

Acorn Still Eaten

The acorn still finds a place in the human diet particularly in the Far East where the nuts are baked, shelled, ground into flour and used to make a type of bread. In earlier days the Indians in this country used the acorn of the white oak and the sweet acorn of the Pacific states. In England the acorn is a valuable food for fattening hogs and the so-called right of pannage is practiced. Under this right individuals are permitted to turn their hogs loose in the king's forests to feed on the falling nuts.

Many Nightshade Types

More than 1,000 varieties of trees, shrubs and herbs termed generally nightshade, have been identified. Most of them are found in the tropical or semi-tropical regions. They all possess the power in their leaves of inducing sleep, a power which is lost, however, if the leaves are boiled. Among the more common varieties are the woody nightshade, sometimes called the bitter-sweet; the deadly nightshade, known as belladonna; and the enchanters' nightshade, called cecrops.

Diamond Still a Mystery

The exact conditions under which diamonds are formed in the earth have not yet been discovered, but scientists have found that by heating pure prepared carbon and iron to intense heat by electricity, then letting the mass cool suddenly, very small diamonds are formed at the center of the lump. This would seem to indicate the process of diamond formation—carbon subjected to great heat and the tremendous pressure of cooling.

MENUS OF THE DAY

By MRS. ALEXANDER GEORGE

A February Dinner

The Menu

Roasted Veal Chops
Creamed Potatoes
Buttered Peas
Dill Pickles
Tomato Salad
Cocoanut Cream Pie
Coffee

Recipes For Six

Creamed Potatoes

4 tablespoons butter
6 tablespoons milk
1/2 cup cream
1/2 cup milk
1 teaspoon salt
1/2 teaspoon paprika

Melt butter, add flour and when blended add cream and milk. Cook until creamy sauce forms. Stir constantly. Add seasonings and potatoes. Cook 2 minutes. Pour into serving dish, sprinkle with paprika.

Tomato Salad

1 cup diced tomatoes
1/2 cup diced celery
2 tablespoons chopped onions
1/2 teaspoon salt

Mix and chill ingredients. Serve on lettuce with French dressing.

Cocoanut Cream Pie

1 baked pie shell
1/2 cup sugar
1/2 cup flour
1/2 teaspoon salt
1/2 cup milk
2 egg yolks

Blend sugar, flour and salt. Add milk and yolks. Cook in double boiler until thick and creamy. Add rest of ingredients and heat well. Pour into pie shell, spread with meringue.

A Ringue

1 egg white
1/2 cup sugar
1/2 cup flour
1/2 teaspoon salt

Beat whites until stiff. Add sugar, heat until creamy. Add remaining ingredients. Knead spread on 10-inch. Bake 10 minutes in slow oven. Cool and serve.

Chew the Cud

Animals that chew the cud are called ruminants, and the division of the animal world to which they belong is called the Ruminantia. Among the ruminants are the cow, sheep, goat, deer, antelope, giraffe, elk, caribou, moose and chamois.

KINGSTON, N. Y., FEB. 7, 1934.

LOADING ON RELIEF

Comes the story from New York City that a large number of CWA workers engaged in a park project in that city are loading on the job, that they merely move stones about a little to create the impression that they are busy. This should not cause an indictment of the CWA, but it does lead to the belief that if the taxpayer must furnish funds to supply needy individuals with employment, those same individuals might be sporting enough to perform the tasks assigned to them. Certainly the taxpayers are not happy to learn that their hard earned money is being squandered by a bunch of loafers.

There has been for some time the contention that relief projects are creating a class of people that seem to expect the "other half" to support them. This discovery in the state's metropolis leads one to believe that there is some justification for that belief. With the government doing so much for the unemployed, and the taxpayer bearing the burden without a serious objection, it behooves the fellow who gets a job on relief work and benefits thereby to do his duty and deliver what he is paid for.

Taxpayers won't forever go on supporting the other fellow, not if he doesn't appreciate what is being done for him. When an informed public finds its money is being spent to make a bunch of loafers happy, it is likely to balk, and some of the soft jobs under relief work will have to be surrendered for real labor.

Perhaps if all relief was now withdrawn a large percentage of those who desire employment would be able to find it, those who honestly desire work, and the others—well the public can't support them forever, they might labor too, or starve.

DEAD MEN'S CURSES.

To the newly revived talk of the curse supposed to have been laid on violators of his tomb by Pharaoh Tut-Ankh-Amen, Director Winlock of the Metropolitan Museum of Art in New York says tut-tut! He holds that bit of superstition up to the light of reason, applies a little arithmetic to it, and it fades away. Arithmetic is usually a good antidote for superstition.

There were 40 persons, he recalls, present at the opening of Tut-Ankh-Amen's tomb. That is, not counting native laborers. Native Egyptians are proof against curses. Of those 40, 24 are still alive after about 19 years. Of the six who died, the average age at death was 60 years. A life insurance actuary would call that about normal. Moreover, most of the six alleged victims took no part in the disinterment. Some of them never entered the tomb. One merely visited it as a tourist. Most of the people often referred to as curse victims were relatives who had nothing to do with the case. So much for dead men's curses. Very likely anyone might die of a curse, real or imaginary, if he believed in it hard enough. But fortunately archeologists are seldom made of such stuff.

If anyone wants to make a real test of the power of the dead in such cases, he might conduct an experiment that would be of world-wide interest. On a stone slab in a church at Stratford-on-Avon, beneath which the body of William Shakespeare is supposed to be buried, is carved this inscription, attributed to the poet himself:

"Blest be he who spares these stones, And curst be he who moves my bones."

Let the bold adventurer raise that stone, inspect and measure the skull that held the sheet brain known to man, and then see what happens.

UNSTABLE ANTARCTICA.

Millions of us have followed Admiral Byrd's adventures in Ant-

arctica. To get away from our own troubles, we have followed him to the edge of the world. We have followed him to the edge of the world. We have followed him to the edge of the world.

There is something about the story of the discovery of the continent of Antarctica that is so fascinating that it is hard to believe that it is true. It is a story of adventure, of discovery, of the human spirit.

Chapter 25. AMBUSH. "I think," said Juan finally, "that they will stay there today. At this season, it rains in the late afternoon, and sometimes at night. It is more pleasant to be about between the showers. I think these people are all sleeping now."

Still Grahame hesitated to leave his lookout. "If you will climb down to our packs, I will watch for you. There is nothing we could do now, except wait. If they take those prisoners elsewhere. Even then we could do nothing, and we might be seen here sooner or later. Also, I am hungry."

Juan smiled as he mentioned his appetite. "Frank gave him an uncertain smile. 'Maybe you're right, son. Let's both slide down. I have a hunch we ought to find some safe place not far from here, and hold a council of war.'

"Not that any place near here would be particularly safe. But it ought to be possible to find a spot where we could keep out of sight, and yet be able to get into the city during the night, or into the jungle for food."

They made a cautious descent, and slipped toward the trail they had left so precipitously that morning, beside which they had cached their packs.

Juan was in the lead, a trail-position that Grahame usually accorded him, since he had found that the boy had a canny instinct in sensing trail-danger, before he, Grahame, could ever possibly be aware of it.

They reached the tangle of fallen scrub palmetto where they had left their packs. Grahame heard Juan's low murmur of astonishment, and hurried forward. Unconscious of the action, the American's fingers closed over the butt of his automatic.

Juan stood staring thoughtfully at the place where they had left the packs. There was no doubt that this had been the spot; the grass and palm leaves still showed indentations where the weighty sacks had been; but the packs, with their hammocks, their extra clothing and ammunition, with their first-aid kits and emergency rations, were gone!

At the instant of discovery Juan did a thing which proved that jungle-wisdom is instinctive. He leaped backward toward Grahame. The American, muscles reacting to the suddenness of the boy's movement, crouched.

From a screen of bush behind the spot where their packs had been, the naked torso of a man appeared, golden in the sunlight. He held in his hands a rifle. In a camera-shutter glimpse, Grahame saw that the butt of the gun was almost to his shoulder.

The American fired from under his arm, the muzzle of his pistol barely free of the holster. With the report of the shot, the man slipped through the bush onto his face. The rifle, falling from his limp hands, clattered against a stone.

AMBUSH! Grahame saw Juan's arm crook backward, and then snap forward like a spring released from compression. A silver streak sped from his hand and into the bush to the left. There was a thud, the unmistakable sound of a knife slipping into flesh and a short, throaty "Ahh."

Two rifles cracked. Grahame felt a tug at his collar where his shirt flared away from his neck; then the sound of a bullet crackling through underbrush. He fired quickly, right and left, at the faint wreaths of smoke curling upward. He heard a cry.

From the corner of his eye he saw Juan weaving backward, half crouched. He followed. Two concentric leaps brought them to cover. Once again a rifle cracked. The bullet whined harmlessly overhead.

The action had taken only a few seconds. Stealthily they slipped into the jungle. Behind them they heard a shot or two, and the sound of many voices raised in shouted question and answer. They ran now more openly, careless of the noise they made. Frank knew that distance between them and their pursuers counted vitally.

A half-mile from the scene of the ambush, they paused. "Where now?" asked Grahame, breathing deeply.

single person, whether or not the head of a family, is required to file a return if he or her net income for 1933 was \$1,000 or more, regardless of whether the return is nontaxable by reason of the \$2,500 exemption.

HONOR ROLL ACTIVITIES FOR MONTH AT HURLEY SCHOOL.

Hurley, Feb. 6.—The honor roll, consisting of pupils who received the largest number of credit marks in their respective grades for the month of January, is as follows: Verna Lahl, fourth grade; Elbert Loughran, fifth grade; Margaret Brown, sixth grade; Philip Deato, sixth grade.

Friday, February 2, the newly elected officers of the Hurley Grammar School township took the promise to faithfully perform their duties for the ensuing term. The officers are as follows: Supervisor, Florence Skerrett; clerk, Margaret

Brown; treasurer, Carl Hutchins; highway commissioner, Elbert Loughran; health officer, Mary Mc Spirit; constable, Joseph Dunn; commissioner of decorations, Donald Jones.

Friday afternoon the lantern projector, donated to the school by the P. T. A., was given its first trial in showing the first set of educational lantern slides loaned semi-monthly by the State Department of Education.

U. S. Cavalry in War. Four regiments of U. S. cavalry, the second, third, sixth and seventh, had service in the A. E. F. and the total personnel at the time of embarkation was 5,323.

BLOND GODDESS

A New Serial By Herbert Jensen

Chapter 25. AMBUSH. "I think," said Juan finally, "that they will stay there today. At this season, it rains in the late afternoon, and sometimes at night. It is more pleasant to be about between the showers. I think these people are all sleeping now."

Still Grahame hesitated to leave his lookout. "If you will climb down to our packs, I will watch for you. There is nothing we could do now, except wait. If they take those prisoners elsewhere. Even then we could do nothing, and we might be seen here sooner or later. Also, I am hungry."

Juan smiled as he mentioned his appetite. "Frank gave him an uncertain smile. 'Maybe you're right, son. Let's both slide down. I have a hunch we ought to find some safe place not far from here, and hold a council of war.'

"Not that any place near here would be particularly safe. But it ought to be possible to find a spot where we could keep out of sight, and yet be able to get into the city during the night, or into the jungle for food."

They made a cautious descent, and slipped toward the trail they had left so precipitously that morning, beside which they had cached their packs.

Juan was in the lead, a trail-position that Grahame usually accorded him, since he had found that the boy had a canny instinct in sensing trail-danger, before he, Grahame, could ever possibly be aware of it.

They reached the tangle of fallen scrub palmetto where they had left their packs. Grahame heard Juan's low murmur of astonishment, and hurried forward. Unconscious of the action, the American's fingers closed over the butt of his automatic.

Juan stood staring thoughtfully at the place where they had left the packs. There was no doubt that this had been the spot; the grass and palm leaves still showed indentations where the weighty sacks had been; but the packs, with their hammocks, their extra clothing and ammunition, with their first-aid kits and emergency rations, were gone!

At the instant of discovery Juan did a thing which proved that jungle-wisdom is instinctive. He leaped backward toward Grahame. The American, muscles reacting to the suddenness of the boy's movement, crouched.

From a screen of bush behind the spot where their packs had been, the naked torso of a man appeared, golden in the sunlight. He held in his hands a rifle. In a camera-shutter glimpse, Grahame saw that the butt of the gun was almost to his shoulder.

The American fired from under his arm, the muzzle of his pistol barely free of the holster. With the report of the shot, the man slipped through the bush onto his face. The rifle, falling from his limp hands, clattered against a stone.

AMBUSH! Grahame saw Juan's arm crook backward, and then snap forward like a spring released from compression. A silver streak sped from his hand and into the bush to the left. There was a thud, the unmistakable sound of a knife slipping into flesh and a short, throaty "Ahh."

Two rifles cracked. Grahame felt a tug at his collar where his shirt flared away from his neck; then the sound of a bullet crackling through underbrush. He fired quickly, right and left, at the faint wreaths of smoke curling upward. He heard a cry.

From the corner of his eye he saw Juan weaving backward, half crouched. He followed. Two concentric leaps brought them to cover. Once again a rifle cracked. The bullet whined harmlessly overhead.

The action had taken only a few seconds. Stealthily they slipped into the jungle. Behind them they heard a shot or two, and the sound of many voices raised in shouted question and answer. They ran now more openly, careless of the noise they made. Frank knew that distance between them and their pursuers counted vitally.

A half-mile from the scene of the ambush, they paused. "Where now?" asked Grahame, breathing deeply.

single person, whether or not the head of a family, is required to file a return if he or her net income for 1933 was \$1,000 or more, regardless of whether the return is nontaxable by reason of the \$2,500 exemption.

HONOR ROLL ACTIVITIES FOR MONTH AT HURLEY SCHOOL.

Hurley, Feb. 6.—The honor roll, consisting of pupils who received the largest number of credit marks in their respective grades for the month of January, is as follows: Verna Lahl, fourth grade; Elbert Loughran, fifth grade; Margaret Brown, sixth grade; Philip Deato, sixth grade.

Friday, February 2, the newly elected officers of the Hurley Grammar School township took the promise to faithfully perform their duties for the ensuing term. The officers are as follows: Supervisor, Florence Skerrett; clerk, Margaret

Brown; treasurer, Carl Hutchins; highway commissioner, Elbert Loughran; health officer, Mary Mc Spirit; constable, Joseph Dunn; commissioner of decorations, Donald Jones.

Friday afternoon the lantern projector, donated to the school by the P. T. A., was given its first trial in showing the first set of educational lantern slides loaned semi-monthly by the State Department of Education.

STROKES OF GENIUS

by SAMUEL MISENOR & ALFRED PARKER

The HAYWAIN

by CONSTABLE

WHEN the "Haywain" was exhibited at the Louvre in 1824, it created a sensation among the French artists. John Constable, the Englishman, had learned to depict Nature in lovely fresh colors by working in the open air. His early experience as a country boy laboring in his father's water-mills stood him in good stead, and no one has painted the clouds and skies as truthfully as he did. The six foot canvas, a typical English landscape, was done in 1821.

TOMORROW: AN ITALIAN COMPOSER VERSION OF A JAPANESE TRAGEDY

sketches to be produced by the club players. Everybody is asked to come and help along the hope chest fund for the future brides of the Olive Bridge community, who through the 4-H Club programs are being given a course in practical experience.

Dr. John Cosgrove, Shokan's over-worked physician, who contracted a severe cold, brought on by exposure while traveling night and day in old Olive's rugged climate, has for some time of recent past been taking a rest cure at Benedictine Hospital.

The West Shokan Ladies Aid met Wednesday for their usual weekly church quilting.

Donald Bishop returned to Oneonta Monday after spending four or five days at his home here. His visit followed the mid-year Hartwick College examinations.

Miss Edna Gessner, Benedictine Hospital senior nurse, now assigned at Middletown State Hospital, spent the week-end with her parents at Olive Bridge.

Marvin Van Deusen of Main street, master woodsman, is employed for a few days cutting firewood for Elwyn Davis, who is incapacitated with a troublesome right hand.

On Saturday evening a familiar and socially prominent group consisting of former Supervisor and Mrs. Chester A. Lyons, former Town Clerk and Mrs. John H. Marshall, were entertained at the home of former Justice of the Peace and Mrs. Lester S. Davis of Main street. Master Harry Marshall also was a member of the party.

Harold Constable was employed on Monday by Merritt Bell of North Main street finishing cutting firewood. Alonzo Burgher is assisting with the chores at Maple Dell during the mid-winter absence of Mr. and Mrs. Edward Avery, who are away on a vacation trip.

Full 60 strong was the Olive Bridge 1. O. O. F. and Rebekah delegation represented at the big doings last week, when the Ulster county 1. O. O. F. fraternity greeted Grand Master Dr. John Le Sueur at the Governor Clinton Hotel, Kingston. The Olive pilgrims were led by the no less distinguished Past District Deputy Grand Masters Arthur E. Trowbridge and Virgil C. Gordon. District Deputy President Mildred Bush headed the comely group of queneys. Rebekahs, Brother Trowbridge acted well in his ever becoming role as toastmaster, while Mrs. Bush was hailed as one of the distinguished speakers of the evening.

Supervisor Leroy Davis of Olive Bridge was a Kingston business caller on Friday.

The Tongore Ladies Aid Society will hold its next meeting on February 7, Wednesday, at the home of Mrs. Virgil C. Gordon at Brown Station.

Former Justice Lester S. Davis of Main street has completed the annual enumeration of the dog population of Olive. The check-up tallies upward of 280.

"Happy Days Are Here Again," being the theme song of the barracks bound Boiceville C. C. C. camp boys. The quarantine was lifted Saturday at noon. Fortunate indeed is the fact that no further suspected scarlet fever cases came to light.

With snowy weather all morning Sunday, the church basement was not heated for the afternoon Sunday school session. At mid-day the storm clouds broke and a faithful group assembled one o'clock at the home of the superintendent, Mrs. Bertha Thompson of Main street.

Harlowe McLean and his neighbor, Ernest Pales, were noted among Wall street, Kingston, visitors on Friday.

Early last week Mrs. Claude Bell of North Main street visited her parents and sister residing in upper Manhattan. Mr. and Mrs. Quantrell, who spent much of their summer seasons here of late, have reached the advanced years of 87 and 81 respectively.

Charles H. Weidner, enterprising Hickory Hill poultryman, is distributing his 1934 catalog and price list. Mr. Weidner, whose specialty is pedigreed white leghorns, has been successful since 1921, expects a highly successful year. Already an unusually large booking of early orders is reported by Mr. Weidner.

On Wednesday evening of last week a neighborly group consisting of Mr. and Mrs. George Van Kleef and Judge and Mrs. Henry Winchell visited Mr. and Mrs. Asa Beemer at Hurley. "Ase" is a former south Olive man, and some years ago, preceding the late tenure of Gilbert North, was the capable superintendent of the H. C. Ford estate.

The Department of Water Supply maintenance employees under Foreman Lee Bishop finished their clean up assignment about the Bushkill twin bridges on Monday. The trees cut away were sawed into cordwood, and trucked to Ashokan station. Everyone commends highly the fine job on both sides of the roadway which added untold attractiveness where formerly was a mass of trees and thick undergrowth that in times of flood has greatly impeded the rush of the Bushkill waters thereby causing a wide spread while seeking an outlet in the engulfing maw of the reservoir.

Dr. J. D. W. Dumond of Olive Bridge, battle scarred veteran of 35 years service in Olive and adjoining towns, laid on the shelf for a time due to poor health, has recuperated. Doc, faithful old servant, again offers to carry on. His ambitious restless nature and deeply imbedded desire to be of service simply will not be held down. Although the doctor has no car at present, he will serve and serve gladly those who come after him. At stated hours he also may be consulted at his office every day.

Upward of 200 post card notices have been mailed by Elwyn Davis secretary of the 1. O. O. F. Ulster County Past Grands Association, notifying members of the next meeting which will be held Saturday, February 10, at 8 p. m. Place of assembly will be at the rooms of Arcadia Lodge, No. 172, Kingston, located at the corner of Brewster street and Broadway.

Feb. 7, 1914.—Dr. H. F. Meinhardt broke his leg in fall on icy sidewalk.

P. R. Finger seriously hurt in fall from roof of his house on Liberty street.

Thomas Cannon died on Third avenue.

Feb. 7, 1924.—Mrs. Ida Florino died.

Mrs. Johanna Enright died at her home, 119 Newkirk avenue. William S. Dunlap of the old 12th Regiment died.

Mayor Morris Block appointed Judge James Jenkins corporation counsel to fill vacancy left by death of William D. Brinsler.

Miss Anna Frances Bracken and George A. Cahill married.

Crows of Midway. Wilder spots are growths of some species of mold. They appear on cotton material and sometimes on woolen which have been left in a damp, dark place. Leather, too, is very susceptible to mold.

Charles E. Colcord of Oklahoma City has been a member of the chamber of commerce for 45 consecutive years.

WILL BUILD 3,000 AIRPORTS IN U. S.

Government Board Also Aims at Cheap Planes.

Washington.—A broad aviation program ranging from giant airships down to the humblest of biplanes is being planned by the War Department. The plan is to build 3,000 airports in every village and town in the United States. The program is being planned by the War Department, which is in charge of the program, and is being carried out by the War Department.

While much of it may seem little more than a dream at first thought, the plan is going to be carried out in a very practical way. So practical, in fact, that it has won the very warm approval of the War Department. The plan is to build 3,000 airports in every village and town in the United States. The program is being planned by the War Department, which is in charge of the program, and is being carried out by the War Department.

The final amount will rest with the War Department, but it is expected that the program will cost about \$10,000,000. The program is being planned by the War Department, which is in charge of the program, and is being carried out by the War Department.

His questionnaire has developed the fact that there are 14,000 licensed pilots in this country and 11,000 student pilots—25,000 pilots in all. But there are only 7,000 aircraft available for these 25,000 trained fliers. This condition exists because of the high price of aircraft, he says.

Discover Sea Urchin Is Born Without a Mother

Princeton, N. J.—The whirling microbe invented by Prof. A. Newton Harvey of the department of biology of Princeton university, and by Alfred Loomis of Tuxedo Park, N. Y., has recently made possible the discovery of a new type of genesis in nature.

The new form of genesis, known as epigenesis, is the opposite of pathogenesis in that it involves reproduction with only the male cells present. The discovery of epigenesis was made possible by the latest model of the centrifuge microscope, enabling scientists to observe cells whirling at a speed of 24,000 revolutions a minute.

The centrifuge was first developed two years ago, and has been termed a "microbial merry-go-round" and a "cell carousel."

The discovery of epigenesis was made when it was observed that parts of the eggs of sea urchins which still contained no female nuclei were still capable of developing into living forms after fertilization had taken place.

An accessory to the centrifuge is a special motion picture camera which records on film the changes that take place in the cell as shown through the microscope.

British Plan New Way to Halt Jay-Walking

London, England.—Fatalities among "jay-walkers" may be almost eliminated by a new road safety plan being discussed by British authorities. The plan is simple. A two-and-one-half foot post and chain barrier would be placed all along the pavement curbs. At intervals there would be openings to permit pedestrians to cross the road in "safety lanes." In these marked lanes, any motorist killing a walker would automatically be charged with manslaughter.

While walkers in the specified gaps would have the right of way, those jumping over the barriers to cross the road would do so at their own risk. The ministry of transport is reluctant to make jay-walking a penal offense, and it is thought that the new plan would greatly reduce the number of fatal accidents.

No More Horse Thieves, Chickens Are Guarded

Washington.—The chicken thief may plead until he's hoarse, but the Woodland Horse Protective association, which never failed to recover a stolen horse since it was founded in 1895, has put its foot down on coop robbers. Horse stealing, in fact, has ceased to exist as a criminal operation in the West and the Woodland association, rather than disband, has decided to concentrate hereafter on the protection of barnyard flocks.

Thousands of dollars in reward money, which has piled up in the association's treasury, has been devoted to welfare work and does have been abolished.

Cobra-Killing Dog Finally Loses Life

Hyderabad, India.—A dog named Jill, which became renowned in this region for killing 30 cobras and nearly 100 other snakes, died fighting her last battle with an eight-foot king cobra. She encountered the snake at dusk and after a long battle brought it to her master's feet, only to fall dead from a bite in the neck. Jill's puppies will carry on the war, as she taught them how to fight cobras.

IS EPILEPSY INHERITED? CAN IT BE CURED?

A booklet containing the opinions of famous doctors on this interesting subject will be sent FREE, while they last, to any reader writing to the Editorial Director, Dept. 1066, 545 Fifth Ave., New York.

Appropriated \$60,000, Approve Rights of Way

(Continued from Page One)

for the execution of this contract which are owned by the following persons, at the considerations indicated, covering properties described in the deeds which were prepared by the city engineer and corporation counsel and filed herewith, and that the Common Council be requested to order such deeds recorded:

Consideration
Norman Richert and wife \$ 1.00
William Lawson and wife 1.00
George W. Moore and wife 1.00
Arthur Van Demark and wife 25.00
Anna Hyde 1.00

Be it further resolved, that the construction agreement filed herewith and entered into between the city of Kingston and Louis A. Bowers and wife, providing for said city to use the strip of land described therein for fill and abutment purposes, in consideration of the city's holding of the embankment holding said fill and paying the expense of removing the garage of said Bowers from its present location to a safe point from the highway, be hereby approved and transmitted to the Common Council for approval, and

Be it further resolved that the attached rights of entry agreement entered into between the city of Kingston and Arthur Johnson and Raymond Tillson and wives, and Morris and Anna Gruber, with the promise of adjustment either by purchase or condemnation, be accepted and placed on file, pending further negotiations with the owners.

Be it further resolved that authority is hereby given and approved for the execution of the contracts herein described by the city of Kingston, and that the deeds, agreements and rights of entry be hereby ratified and approved in all particulars.

The local CWA through its chairman, Henry Forst, submitted the following report of the work accomplished in Kingston with the request that the CWA be given an appropriation of \$60,000 to carry on the work during January and February.

The report follows:
The Local Civil Works Administration has now been in operation since December 5, 1933. During that time progress has been maintained in the execution of the local program, and a total of \$137,882.38 has been expended for salaries and wages, which sum has been paid by the Federal Government.

Our quota of 1,200 employees, as fixed by the Federal Government, has been filled, and your local CWA Administration, in view of the local unemployment situation, has and will continue to exert every effort to maintain our quota without reduction.

Since we have been in operation the following projects have been completed:

Project	Title	Labor	Material	Total
79-A-6	Widening Foxhall Ave.	\$3,675.92	\$150.00	\$3,825.92
79-A-9	Woodlot	1,537.87	12.30	1,550.17
79-A-17	Cleaning Catch Basins	877.50		877.50

In addition, the following projects are under way:

79-A-1	Additional Lights in Schools	50%	completed
79-A-2	Rounding Street Corners	30%	"
79-A-3	Retaining Wall—School No. 5	45%	"
79-A-7	Wilbur Quarry	60%	"
79-A-12	Painting and Repairing Schools	95%	"
79-A-14	Fire Alarm System	50%	"
79-A-15	Repairing Streets	25%	"
79-A-16	Old Armory into Convention Hall	65%	"
79-A-18	Sewer Systems	50%	"
79-A-20	School Census	80%	"
79-A-23	Clothing Bureau	60%	"

The official date for the ending of the CWA was in the beginning of February 15. The Federal Government, however, is now planning to extend operations beyond that date. However, no commitments have been made by us for materials for use beyond February 15, and none will be made pending an extension of the CWA time limit.

We wish to assure you, however, that suitable projects, already approved by your honorable body at your meeting of December 22, 1933, are available for immediate commencement on February 15 if the CWA is extended beyond that date. These projects consist generally of a continuation of the work of repairing and extending the city's sewer and drainage systems, which is of a constructive nature designed to eliminate many of the evils of the present system and which should meet with universal approval on account of increased real estate values. If the CWA continues for a sufficient length of time, damaged streets will be repaired as projects covering this work have already been approved.

The local CWA administration, with the assistance of Mayor Holman, has been negotiating with the federal authorities, impressing upon them the necessity for assisting the city in the matter of providing materials for our projects. Our efforts so far has resulted in an allotment of \$5,000 from the federal government for materials, and requisitions have been sent to the New York office for materials to this amount. We shall continue to press our claim for additional assistance.

Your body has made an appropriation of \$20,000 to cover costs of materials, etc., for December, 1933. We estimate that an additional sum of \$60,000 will be required for materials, engineering, supervision and other incidental costs for the months of January and February, and we request your body to appropriate this sum for the purposes and covering the periods herein indicated.

Appropriation Made
The request for the appropriation of \$60,000 was referred to the finance committee and a recess taken to give the committee an opportunity to report.

The committee later submitted a report favoring the granting of the appropriation and the council unanimously approved the report and arranged for the appropriation.

Claims Filed Against City
Elizabeth Garry of 44 West Union street filed a claim to recover \$2,000 damages against the city for injuries she said she had sustained in a fall on the sidewalk on Wurts street on January 3. It was referred to the finance committee and corporation counsel.

James F. White of 105 Abeel street filed a claim to recover \$2,000 for injuries sustained by his wife in a fall on central Broadway on January 5 and the wife also filed a claim for \$5,000. Both claims were referred to the finance committee and corporation counsel.

Mrs. Morris Block of Spring street filed a claim for \$47.28 for

damages made necessary and said by reason of a blockage in the sewer. The claim was referred to the corporation counsel and finance committee.

Want A Playground

Residents of the Third ward filed a petition with the council asking for the establishment of a playground for the children of that ward and suggesting that the city acquire the land on which the old TB Hospital on Clinton avenue stood and also a piece of land adjoining the City Home. The petition stated that the ground could be graded as a CWA project. The petition was referred to the board of public works.

Open Space for Bank

V. B. Van Wageningen, as president of the Kingston Savings Bank, wrote that it was the practice of certain business men upon to park their cars all day in front of the bank, making it impossible for the bank's narrow to drive their cars up to the curb in front of the bank. Mr. Van Wageningen requested that an open space be left in front of the bank. The matter was referred to the traffic control committee.

Colonel Claim Settled.
The council authorized the settling of the compensation claim of Samuel Conlon, of 4 Park avenue, for the sum of \$336.45. Conlon when injured was employed by the former emergency work relief board of the city which carried compensation insurance with the Union Indemnity Company, which has since failed.

To Remove Blinkers.
The traffic control committee authorized the board of public works to remove the traffic blinkers at Broadway and Railroad avenue and also at Washington and Hurley avenues.

To Carry Own Insurance.
A resolution that the city of Kingston carry its own compensation insurance from and after February 15, was referred to the finance committee.

Annual Charity Ball.
The Knights of Columbus wrote asking for the use of the remodeled armory for the annual Charity Ball on Friday evening, April 20. It was referred to the building committee.

Want Use of Diamond.
The P. N. A. Baseball Club wrote requesting the use of the baseball diamond at Hasbrouck Park on certain Sundays during the coming season. The request was referred to the board of public works.

Obtain Rights of Way.
The council authorized the obtaining of necessary rights of way for the Foxhall avenue sewer. Rights of way from Peter Barnmann and the heirs of Edna Barnmann were obtained for \$500, and from John W. Matthews and wife for \$200, and it was planned to obtain rights of way from C. O. Fromer and wife for \$100.

Visited CWA Offices.
The finance committee reported that Monday evening it had visited the local CWA headquarters and was informed that to date the CWA had expended the sum of \$62,310 for materials and that the government had expended the sum of \$137,933.38 in wages here. The committee said every member of the council should visit headquarters as they would obtain an idea of the magnitude of the work being done.

Report on Armory.
The building and supply committee reported that it was not known just when the old armory remodeling would be completed and for that reason no definite answer could be given to requests for the use of the

building by organizations. To date the committee had received requests from Kingston Post of the American Legion, the Shrine's Association, the Knights of Columbus, the Benedictine Hospital for Easter Monday, and from Benjamin Sussman for one week for a grocery exhibit.

The question of rental had also been discussed but no definite action taken.

The committee also reported on the use of the council chambers for public meetings and suggested that the entire council should take some action in the matter.

Commander Goodwin

Alderman Zucca introduced a resolution commending Congressman Goodwin for his actions in trying to have the government dredge Rondout harbor. A copy of the resolution will be forwarded to the congressman.

Motions Introduced

The following motions and resolutions were introduced and referred to the proper city boards and departments.

By Alderman Kelly—That the CWA build a sewer in Hudson street. Alderman Leirey—That the salary of the superintendent of the city hall which last year was \$1,800 be reduced to \$1,500.

Alderman Tremper—That a policeman be placed on duty at Smith avenue and O'Neil street during the hours children were on the way to and from school.

Alderman Zucca—That an overhead traffic light be placed at Crown and North Front streets; that a catch basin be placed in front of 5 St. James street.

Alderman Doherty and Kelly—That the CWA relay sewer in Spring street between Wurts and Hone streets.

Alderman Cornwell—That a street light be placed at entrance to Klingberg avenue and that a "dead end" sign be placed at the entrance of that street.

Alderman Kelly—That a new floor be laid in the meeting room of Rescue Hook & Ladder Company on Abeel street.

Alderman Epstein—That a sidewalk be laid on Chambers street from Murray street to St. Mary's street; that the corner at Newkirk avenue and Chambers street be rounded; that the CWA erect a junior high school; that CWA dig up all the old trolley tracks; that hole in Chambers street, near Mill street be filled; that sewer at Murray and Chambers street be repaired.

Alderman Doherty—That parking be permitted only on one side of Adams street.

The council audited a number of bills and claims and then adjourned.

TILLSON.

Tillson, Feb. 7.—Mr. and Mrs. Charles Dill of Buffalo are spending some time visiting friends and relatives in this place.

Miss Ruth Merriew is confined to her home with the grip.

The choir of the Reformed Church will hold a Valentine party and entertainment in the church hall on February 14.

The day of prayer will be observed in the Reformed Church Friday evening, February 16. The congregation of the Friends Church will join the Reformed members in a union service. Every one is invited to attend.

The Ladies' Aid Society will meet at the home of Mrs. D. L. Christians Thursday afternoon, February 8.

Mr. and Mrs. Vernon Tuttle left this place yesterday for Des Moines, Ia., their former home.

Mrs. Albert Myers is confined to her home by illness.

Members of the Rosendale

Talks to Parents

Self-Sufficiency

By BROOKE PETERS CHURCH

The Joneses were a devoted family. Not only were the parents an ideally united couple, but the children were an integral part of its activities, and taking part in conversation and decisions as soon as they were able to understand what it was all about.

There were, of course, the usual number of battles within the family, the average incompatibilities which every such group contains. But against the world they were a close corporation, and no matter how violent a row might be in progress within the home, a word of criticism from without the charmed circle was enough to make it present a solid and united front to the foreign aggressor.

A charmed circle—yes, and with all the weaknesses as well as the advantages which a charmed circle boasts. None could break it, neither those within nor those without. It was complete in itself.

But in time such an unbroken companionship of the same people grows monotonous, and especially to young people. The parents had chosen their present existence consciously, and were happy in their choice. But the children came in time to wish other companionship and varied surroundings, and to try to reach out for them.

But they did not know how to approach outsiders, nor to get along with them when they did make contacts. They were lazy socially, and resented the time and effort necessary to social life. Dissatisfied with their imprisonment, and yet unwilling to break loose, they led an incomplete and discontented existence.

No matter how great the effort, it is the duty of parents to keep the doors of the home open both for those within and those without.

Grange and farmen are rehearsing for a play to be held in Firemen's Hall at Rosendale, February 21 and 22.

Mr. and Mrs. Edward Demorest, Jr. entertained friends over the week-end.

Card Party.

A card party will be held at the home of Mrs. Andrew Brookie, 118 Tremper avenue, Thursday, February 8, at 8:15. The public is invited.

ARE YOU A HAIR MUSSER?

JANGLED NERVES

Those untidy habits come from jangled nerves

It's bad enough to look untidy—ill-groomed. But it's twice as bad when you think that those nervous habits are a sign of jangled nerves... a friendly signal that says, "Find out what's the matter."

So, if you catch yourself musing your hair, biting your nails, chewing pencils—or suffering from any other of those countless little nervous habits—Get enough sleep and fresh air—find time for recreation. Make Camels your cigarette. You can smoke as many Camels as you please, for Camel's costlier tobacco never jangle your nerves.

COSTLIER TOBACCOS
Camels are made from finer, MORE EXPENSIVE TOBACCOS than any other popular brand of cigarettes!

CAMELS — THEY NEVER GET ON YOUR NERVES!

MODENA

Modena, Feb. 7.—Mrs. Daniel, who has been very ill is much improved.

Mrs. Charles Decker spent Monday afternoon at the home of Mrs. near Smith.

The play entitled "Silas Smidge," given by the young people of the Sunday school was given at Memorial Hall on Friday evening. A large number attended and was thoroughly enjoyed by all.

Mrs. Roy DuBois is ill and is attended by Dr. Virgil DeWitt of New York.

Miss Glennie Wager spent Saturday afternoon and evening at the home of Marguerite Smith.

Members of the Modena Fire Company held a business meeting at the clubhouse on Monday evening.

Mrs. Joseph E. Hasbrouck, Jr., died on Friday on her brother, Ernest Van Orden, who is ill at Pleasant Glen.

Mr. and Mrs. Michael Malvahlil are the proud parents of a son, born at Cornwall Hospital. Mrs. Malvahlil was formerly Miss Irene Hyatt.

Myron Miller and friend of Clinton Corners attended the play at Memorial Hall on Friday evening.

Mrs. Cornelia Taylor of Albany spent a few days at the home of her sister, Mrs. Myron Shultis.

Mr. and Mrs. William Yeager and daughter of Walden were callers in town on Friday.

Jangled Trolley Message

About a quarter of a century ago Tolstoy wrote an address on peace for the conference at Stockholm. In August, 1910, when the peace conference was held, the paper was read in Tolstoy's absence and aroused many misgivings. It was considered rather extreme and consigned by the body to the archives. Through Tolstoy's literary executor, Vladimir Tchertkov, the address has been published.

"Twice as Cold as Zero"

The expressions "twice as cold" or "twice as hot" refer entirely to the discomfort of the individual, and even then are only rough comparisons of the state of one's feelings that depend on more things than temperature. "Twice as cold," and other similar expressions, cannot, therefore, be evaluated in terms of the reading of a thermometer, and have no scientific meaning.

Longer Blooses

There is considerable evidence in the forecasts for early spring styles that blooses are going to come out from under belts and do more than half toward making a two-piece costume.

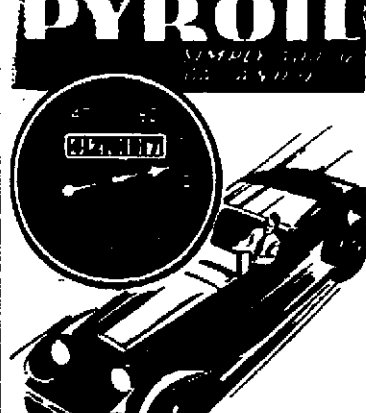

Ankle Bracelets Again

After many unsuccessful attempts in the last 30 years to popularize ankle bracelets, another try is being made in Paris.

Relieve Those ITCHY PIMPLES

Irritating pimples and ugly itching blotches are greatly benefited in one night when time-tested PETERSON'S OINTMENT is applied at bedtime. It's simple—just rub on a tiny amount of ointment. Get a 25c box of PETERSON'S from your druggist—and just try it. If the angry redness hasn't diminished by morning, it won't do you any good. Look better, if you are not truly amazed—druggists will refund your money. Use PETERSON'S OINTMENT also for eczema eruptions, rashes, itching toes, cracks between toes. Stops itching torment in a few minutes. Try It—Advt.

PYROIL

INCREASES MILEAGE

More miles per gallon of gasoline. Much more mileage every automobile driver. Pyroil is the only oil that does this. It is the only oil that is so pure and so clean that it does not clog the engine and does not burn off. Pyroil will give you more miles per gallon of gasoline than any other oil.

Pyroil is the only oil that is so pure and so clean that it does not clog the engine and does not burn off. Pyroil will give you more miles per gallon of gasoline than any other oil.

Pyroil is the only oil that is so pure and so clean that it does not clog the engine and does not burn off. Pyroil will give you more miles per gallon of gasoline than any other oil.

Pyroil is the only oil that is so pure and so clean that it does not clog the engine and does not burn off. Pyroil will give you more miles per gallon of gasoline than any other oil.

Pyroil is the only oil that is so pure and so clean that it does not clog the engine and does not burn off. Pyroil will give you more miles per gallon of gasoline than any other oil.

Pyroil is the only oil that is so pure and so clean that it does not clog the engine and does not burn off. Pyroil will give you more miles per gallon of gasoline than any other oil.

Pyroil is the only oil that is so pure and so clean that it does not clog the engine and does not burn off. Pyroil will give you more miles per gallon of gasoline than any other oil.

Pyroil is the only oil that is so pure and so clean that it does not clog the engine and does not burn off. Pyroil will give you more miles per gallon of gasoline than any other oil.

ALL Together.
America, victorious! You've weathered every gale.
Your flag—a symbol of success, knows no such word as fail.
Beneath your banner, hope renewed, we face another year.
With strengthened hearts, we'll carry on since we have basked in fear.
With eyes of faith, we look ahead, undaunted—unafraid;
The memory of past battles won, our comfort and our aid.
Teamwork, our weapon, share and share, all loyal to the cure,
A combination that will win in Nineteen-Thirty-Four!

The banquet speaker who says he is too full for utterance must have gotten it some place else, thinks a Kingston man.

Wife—You don't give me any nice presents as you used to.
Husband—No, but I settle for those you give yourself.

A greater invention than the non-refillable bottle would be a boy with a non-refillable heart.

Wife—If I should die, John, what would become of you?
Husband—I might die of old age.

A hen-pecked husband is one whose wife makes him shave with an old-fashioned razor because she can't sharpen pencils with a safety.

Judge—You were arrested for stealing a couple of diamond rings. You say you are innocent. Can you afford to pay a lawyer to defend you?
Culprit—I could give him one of the rings.

"How long yet is it going to be," snaps a local man, "until it takes everybody's income to pay taxes to provide government aid for everybody?"

First Comedian—Did you hear the audience applaud when I finished my act?
Second Comedian—Why shouldn't they? You had finished your act.

Believe it—it's true: Stalin, once a theological student, now leader of the U. S. S. R. (United Soviet States Russia)—the greatest organization of workers in the history of the world, never did a day's manual labor in his life.

A young man came home to lunch and upon sitting down to the table he asked:
Young Husband—Who put mustard on this waffle?
His Wife—Why, darling, that's my lemon pie.

A famous New York preacher was quoted the other day as saying that he found "the modern lipstick very distasteful." Perhaps he should carry a few peppermint drops in his pocket for such emergencies, suggests a local man.

Housewife—If you love work, as you say, why don't you find it?
Tramp (sadly)—Alas, madam, love is blind.

The word "tax" we are told, comes from the Latin "taxare," meaning "to touch sharply." No further wise-crack is needed.

Her Father—Are you sure you love my daughter?
Young Man—Certain. I can't sleep at night for thinking of her.
Her Father—Get the same effects from her dress and beauty bills.

The girl who throws herself at a boy's feet often winds up throwing something at his head.

Judge—Is your wife dependent on you?
Mose—She sho' is, Judge. Ef Ah didn't find jobs for her she'd starve.

Despite resolutions bad habits stick to a fellow like a burr to a sheep's back.

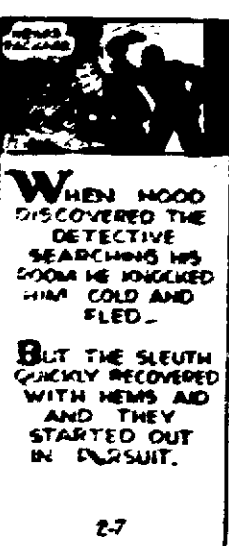

The Moss Furniture Syndicate, 805 Summit Ave., Greensboro, North Carolina.

With a kick in the shin that is nasty but neat,
Puff sends Apex back to his mountain retreat.
That's that! says the Puff, with bravado that's grand;
We sure made old Apex put tracks in the sand.

DEATHS LAST NIGHT

By The Associated Press.
Rabbi Hyman Kacow.
 New York.—Rabbi Hyman Kacow, 53, chief rabbi of the Central Synagogue of American Rabbis for 1933.

Dr. Edward Wright Washburn.
 Washington.—Dr. Edward Wright Washburn, 53, chief chemist of the Bureau of Standards. He was born in Danville, Neb.

NEW HURLEY

New Hurley, Feb. 7.—Choir rehearsal will be held at the home of Charles Everett Thursday evening of this week.

Mr. and Mrs. F. G. Schoonmaker and Mr. and Mrs. Gerow Schoonmaker and little son motored to New York city last Wednesday to meet the Rev. and Mrs. S. M. Gilliam, who arrived there Wednesday morning on their tour from India. They left New York in the afternoon for this and are spending some time here with their daughter, who is very ill.

Miss Della Brown entertained her friends, Miss Pettitt, at her home in this place over the week-end.

Mr. and Mrs. William DePaw and daughters were Sunday guests of relatives in Plattekill.

Mr. and Mrs. Francis Garrison returned from their wedding trip Sunday and are spending a few days with his parents until their house is completed.

The T. N. T. Club met at the Williams home Thursday evening of the past week. During the business meeting the election of officers for the year 1934 took place as follows:

President, Marjorie Schoonmaker; vice president, Corinne Wilkin; secretary-treasurer, Marion Mackey.

There will be regular preaching services in the church Sunday morning at 11 o'clock. Sunday school will be at 10 o'clock. Everyone is most cordially invited to attend these services. The regular Christian Endeavor meeting will be held as the members will attend a meeting at the Walden Reformed Church.

The Young Woman's Club will serve a clam chowder supper in the church hall Friday evening, February 23. The menu will consist of clam chowder, rolls, apple salad, jelly, coffee and lemon meringue pie. Chowder will be for sale during the afternoon and anyone desiring to purchase any is requested to bring a container for same. An entertainment will be given and games will be played during the evening. The proceeds from this supper will be used for the running expenses of the church hall during the year 1934.

Mr. and Mrs. Roy Denniston were callers last Sunday afternoon at the home of Mr. and Mrs. Wilmot Denniston in Walden.

Leaves Usant 33 Years.
 Hyannis, Mass.—Browsing in the local library, William Ormsby came upon a book entitled, "History of the Ninth Regiment." Investigation disclosed that although the volume had been on the shelves 33 years, its leaves remained uncut.

Sky Map of Entire Country Planned

"Air Mass Analysis" is the name of the plan by which Willis May Gregg, new head of the United States weather bureau, will try to improve weather forecasting. Planes will be launched from strategic points to chart the sky.

First Dutch Men Plan for Dinner

The twelfth annual patriotic dinner of the Men's Club of the First Reformed Church will be held this year on Thursday evening, February 22. Prominent speakers will be present. The ticket committee will meet on Friday evening of this week at 7:30 at the office of I. S. Williams on Main street to make the final arrangements.

Three Pillars in Lee's

Home From Constitution
 "Leeland," the ancestral home of one branch of the famous Lee family of Virginia was built at Shepherdstown in 1829 by Edmund Jennings Lee, a grandson of Richard Henry Lee, signer of the Declaration of Independence, and a first cousin of Robert E. Lee, the Confederate chieftain. At the time the mansion was built, observes a writer in the Kansas City Times, Shepherdstown was within the boundaries of old Virginia. Aside from the many historic traditions that are associated with "Leeland," this old mansion is noted for the fact that the three pillars in front were the original masts of the famous old flagship, the frigate Constitution, embalmed in American memories as "Old Ironsides."

The masts were obtained during the War of the Revolution when the old ship was dismantled and rebuilt. The old masts were selected for use in the "Leeland," which was destroyed by fire a short time before the Civil war. "Old Ironsides" acquired other masts in other days. One of the later ones is now the property of the Topeka high school, the gift of former Vice President Charles Curtis.

PORT EWEN

Port Ewen, Feb. 7.—The annual meeting of the Port Ewen Library Association will be held at the home of the president, Mrs. Leona Dougherty, at 7:45 this evening. The election of officers will take place at this meeting. A large attendance is desired.

The Clover Sunday School Class of the M. E. Church will enjoy a pot luck supper at the home of the Misses Gladys and Rose Clark, at 7:30 o'clock Friday evening. The mothers of the class members are invited to enjoy the supper with them.

The consistory of the Reformed Church will hold the second of the series of card parties in the church house Thursday evening. Games will commence at 8 o'clock. The mission which is being held all this week in the Church of the Presentation is exceptionally well attended, the church being crowded each evening. The Rev. James Clark, well-known Redemptorist missionary, who is conducting the mission exercises is an eloquent speaker and the services are much enjoyed. The public is cordially invited to attend these services.

Instruments Crack in Studio
 So dry was the atmosphere in an old wine cellar that had been converted into a broadcasting studio by the British Broadcasting corporation in London, that wooden instruments kept there for use by orchestras began to crack. The British did not want to give up their wine-cellar studio, so they built a series of trays containing water around the walls of the instrument room, and this provided the requisite humidity.

LYONSVILLE.

Lyonsville, Feb. 7.—A few from this place visited Kingston Saturday evening.

Mr. and Mrs. Elmer Van Demark of Kripplebush spent Sunday with Mr. and Mrs. Orr Christiana and family.

Mr. and Mrs. James B. Davis and daughter, Roberta E., called on Mr. and Mrs. Floyd V. Davis Sunday afternoon.

Joseph Burgher of Mettacaubie called at the home of Mr. and Mrs. Ray Davis and Miss Evelyn E. Davis Sunday afternoon.

Mr. and Mrs. Sherman Lyons and daughter, Betty J., spent Sunday afternoon and evening with Mr. and Mrs. Rufus Lyons.

Charley Krouffelt spent the week-end at his home in this place. Mr. and Mrs. Charles Smith have

gone on a trip to California for a couple of months.

Mr. and Mrs. William Davies spent Monday in Kingston.

Miss Edith Quick of Recheater Center has returned home after spending a few days with her sister, Mrs. Edgar Wilkew, in this place.

Mr. and Mrs. James B. Davis and daughter, Roberta E., spent Tuesday with Mr. and Mrs. Abram Sherman of Ellenville.

Rural Church Services.

The services of the Kramville and Lyonsville Churches will be held next Sunday at 11 o'clock and 2:15. The Rev. T. S. Braithwaite will officiate and speak on the timely subject appropriate to Lincoln's Birthday, taking as his subject: "Was Lincoln a Man of Sympathy?" All are cordially invited to attend.

RIFTON LADIES PLAN PARTY FEBRUARY 21

Rifton, Feb. 7.—The ladies of the M. E. Church are planning a party to be held in the village hall Wednesday evening, February 21. Young and old are cordially invited to attend this affair. There will be some unusually fine entertainment besides games and contests that will appeal to all. A small admission fee will be charged everyone. The ladies will have refreshments for all at a very moderate price.

All those taking part in the entertainment will meet for rehearsal Tuesday evening, February 20.

A special meeting will be held at the home of Mrs. Amy Froehner Tuesday evening, February 21, to properly organize the dramatic club.

All those who had part in the previous entertainment given for the church, and all those having part in the entertainment for the party, over 14 years of age, are invited to join.

SENIOR EMMA WYKANT 4-H CLUB HAD MEETING.

The regular meeting of the Senior Emma Wykant 4-H Club was held at the home of Mrs. Darling February 1. After the business meeting songs were sung and games played. Mrs. Fagan, chairman, presided. The correct way of making a delicious nut cake was shown by Mrs. Darling. This cake was planned to give a Valentine party.

Colds
 Ended in a day

Now tens of thousands of people will tell you that the **PASTER, SUREST WAY** to get rid of a cold is to take two **HILL'S COLD TABLETS** and two glasses of water every four hours.

These wonderful little tablets give you much speedy relief—relief you can't obtain by less scientific methods—because they do the three things necessary to break up a cold. Wash germs from system. Check fever and ease away ache and pain. Fight off cold germs **ALL AT ONCE**. Then your cold goes in a jiffy and you feel like a new person. Get rid of cold this sure way. **PASTER** way. Ask druggist for **HILL'S CASCARA QUININE** in the **RED TIN BOX**.

Financial and Commercial Year in New Zealand

New York, Feb. 7 (AP)—Stocks stumbled today over what the more cautious traders described as a long overdue "reality" reaction.

Profit taking in the recent vigorous industrial and rail, and heavy construction market, set the list back 1 to 3 or more points at one time, which was the first substantial reversal this year. There were intermittent rallies, but these were rather feeble. The metals were an exception, holding firm throughout. Grains dropped, wheat losing about 1 1/2 cents a bushel and cotton piling some of its early advances.

Foreign exchange was strong at the opening, but later pared their gains. In the afternoon sterling was still up 3 cents at 45 and French franc was 11 1/2 of a cent higher at 63 1/2 cents.

Just what effect the French political disturbances may have had on domestic equities was a disputed question among brokerage houses.

It was pointed out in several banking offices that further evidence of unrest in France might result in an additional expropriation of foreign funds for investment in American securities because of possible unstable conditions in European markets.

Declaration of a dividend of \$1.25 a share on the preferred stock of the American Woolen Co., while not altogether unexpected, was seen as a satisfactory indicator of business recovery. This was the first disbursement by the company since 1927 when \$1.75 was paid.

Quotations given by Parker, McElroy & Co., members, N. Y. Stock Exchange, 120 Broadway, New York city; branch office, 282 Wall street.

Animal Preserved in British Africa
Twenty wild animal specimens, covering 200,000 square miles, have been established in British Africa.

Byrd Ship Sails for

Antarctic. Byrd's Flagship, *Albatross*, sailed today for the Antarctic. The ship is the largest of the Byrd expedition.

The ship will be in the Antarctic region for several months. It will be the first of a series of expeditions to the continent.

CWA Men Returned To Work in City

The moderate winter weather today resulted in the return to work this morning of the men employed on outdoor CWA projects, the big part of which is the sewer program which is progressing rapidly.

Under a ruling from the government no men are allowed to work on outdoor CWA projects when the temperature is close to zero.

DOWNTOWN REPUBLICAN CLUB MEETS TONIGHT

There will be a special meeting of the Downtown Republican Club tonight at 8 o'clock at the meeting place. Matters of importance will be taken up. All members are requested to be present.

COTTEKILL.

Cottekill, Feb. 7.—The Cottekill Volunteer Fire Co. will hold a modern and old fashioned dance in the new firehouse February 12, at 8 p. m. Proceeds will be for the benefit of the fire company. A cordial invitation is extended to public, friends and neighbors by Capt. Bringle and his staff. There is enough free parking space for all.

The Ladies' Aid is to meet at the Reformed Church on Thursday, immediately after lunch, to help with some sewing.

Prose and service at the Reformed Church will be held Sunday at 2:30 p. m. The Junior Choir will render a nice song for the offertory. A hearty welcome is extended to all Sunday school at 1:30.

Mrs. Tongue who was away approximately eight months, has returned home recently. Mrs. Tongue is sharing some rooms at the home of her sister, Mrs. Mary Pine.

Mr. and Mrs. Joseph Pitrobelli spent an evening at the home of Mr. and Mrs. Charles Signor.

The Misses Ethel and Debbie Styles are suffering with a severe cold. All hope for a quick recovery.

Kenneth Signor and several others attended the dance given last Friday at the Grange Hall in Stone Ridge.

Mrs. Della Rovere and Mrs. Snyder are working out a program for an entertainment which is to be given some time this month by the Sunday School of the Reformed Church.

The Ladies' Aid members met at the home of Mrs. L. R. Connor on Thursday to say good-bye. Those who were unable to be present due to the stormy weather are herewith extending their best wishes to her in her new environment.

Mrs. Melvin Short was chosen vice-president to replace Mrs. Connor. A lovely time was had by all. Refreshments were served.

The many friends of Mrs. Frank Markle are glad to learn of her improvement of recent illness.

The Junior Choir will meet for rehearsal every Saturday at 2 p. m. at the home of the organist, Miss Gertrude Short.

Harry, Jr. and brother Loren Snyder are ill and all are wishing them a speedy recovery.

The Junior Choral Club held its meeting at the home of Miss Gertrude Short. Officers elected were: Dick G. Short, president; Master Dick G. Short, vice president; Miss Anna May Oakley, secretary.

Several members went ice skating after the meeting.

Miss Gussie Styles and Donald Barley returned to school again after a short illness.

Mr. and Mrs. Jacob Barley entertained callers on Sunday.

Mr. and Mrs. Victor H. Sachar called on their old neighbors and friends, Miss Elizabeth Taylor and brother, Bill, on Sunday.

A game of cards was enjoyed last Friday by Bill Signor, V. H. and I. C. Sachar at the home of Mr. and Mrs. Charles Signor. Delicious sandwiches were served.

LEIBHARDT

Leibhardt, Feb. 7.—Bobby Allen of Rochester Center was a caller at the home of Sidney Solberg Saturday.

Herman Quick has finished cutting ice on the pond of his father-in-law, J. Simpson, of Pataunkunk.

Mr. and Mrs. E. B. Markle were callers at the home of her uncle and aunt, Mr. and Mrs. Rhomola Brown, of Samserville Sunday.

Herman Quick butchered a nice beef last Thursday. E. B. Markle was his helper.

Joseph Bush, an aged man of Rochester Center, who had the misfortune to slip on the ice and fall, breaking his hip, was removed to the Kingston Hospital, February 1.

Mrs. Malinda Gosseline was a caller at the home of Mrs. Terman Quick Thursday.

The men employed on CWA country road local are now working Fridays and Saturdays.

Wedding Recommended.
Washington, Feb. 7 (AP)—Harry A. Woodring, assistant secretary of war, was taken to task today by the White House for published references to the Civilian Conservation Corps as a military unit and he quickly explained that he did not intend to picture the CCC as a part of the army.

HONOR LIVINGSTONE IN SOUTH RHODESIA

To Erect Bronze Statue of Noted Explorer.

Washington.—David Livingstone will be honored with a bronze statue to be erected in Victoria Falls Park, Southern Rhodesia, beside the great waterfall which he discovered in 1855.

The noted explorer and missionary is depicted with cane in one hand, rifle in the other, and field glasses at his side. The statue will be placed so that it constantly will be bathed with mist and spray from the roaring waterfall below.

Victoria falls is the most famous scenic attraction and one of the most unusual geographical features of the continent of Africa, says a bulletin from the National Geographic society. "Geographers consider it one of the three greatest waterfalls in the world, rivaled only by Niagara in North America and Iguazu in South America. Although a score of other waterfalls excel it in height, Victoria possesses many aspects which at once set it apart.

Lacks Majesty of Niagara.
"From immemorial times an atmosphere of mystery and superstition has hung over these African falls. Livingstone had the greatest difficulty in persuading his followers to accompany him, as they believed the region to be the home of monsters and devils of destruction. Vestiges of these traditions still exist, although the Cape-to-Cairo railroad, which crosses the river less than half a mile below the falls, is rapidly dispelling them.

"Notwithstanding the magnitude of Victoria falls, the first view of them is disappointing. Although they are nearly a mile in width and 400 feet in height, the grandeur of their proportions is eclipsed by the sudden disappearance of the river, as it plunges into a narrow, rocky fissure extending across its entire width. Only at a single central point is there a breach in this fissure through which the falls can be seen and appreciated in their full proportions, where the converging waters rush madly to the zigzag canyon below.

"So restricted is this view that there is an entire absence of that awe-inspiring and almost paralyzing effect which strikes the visitor dumb with wonder and amazement when Niagara bursts on his near vision. On first sight of the Victoria falls one involuntarily exclaims, 'Oh, how beautiful' but they lack the majesty of Niagara.

Rain Forests and Rainbows.
"No single visit can adequately reveal the fullness of their charm, but repeated excursions must be made to their islands and precipices, their grottoes and palm gardens, their rain forests and projecting crags, their rainbows and cataracts and many-sided views of their exquisite setting in the emerald framework of tropic forests, before their beauty can be appreciated. The fascination of discovering new and hidden charms from different points of view grows on the visitor and becomes one of its greatest attractions.

"As the rainy season commences in Rhodesia in November and continues in the form of tropical showers until April, the best time to see the falls is in May, when the scorching torments are at their flood. November also has its attractions, when the river is low, for then the charm is comparatively free from mist, disclosing vistas and views of the great abyss of rare beauty, which before were wholly obscured by the whirling columns of spray.

"The bridge of the Cape-to-Cairo railroad is the favorite point selected by artists, as the picture through the narrow gap at Danger Point exhibits the full extent of the angry waters as they leap from the precipices to the abyss below.

"There is a hotel near the railway. From its verandas an observer can behold a magnificent panorama of the canyon and Batoka gorge. A walk of half a mile brings one to the place where the rain is born, as the natives call the Rain forest. This is a phenomenon of rare beauty and interest, especially to the botanist, for here the tropic heat and constantly falling spray produce a wealth of vegetation of wonderful luxuriance and variety.

"But the most thrilling scene is from the eastern extremity of the Rain forest at Danger point, where the treacherous vines and grasses, clinging to the rocks with hungry, desperate roots, tempt one to the very verge of the precipitate cliffs that seem to tremble with the terrific shock of the cataract. So dense here at times is the mass of vapor borne from the seething cauldron that the sun's rays can no longer penetrate it, and complete darkness envelops one as he is deluged by the downpour, while the terrific thunder of the falls drowns all other sounds and makes his own voice inaudible."

Minister Buys Dresser; Finds It's Really Bar
Oklahoma City.—An Oklahoma City minister recently objected strenuously when he bought a second-hand dresser and discovered he had purchased a genuine anti-volunteer bar.

The furniture dealer removed the bar from the piece.

A copper container, set in behind the mirror, with the word at the bottom, could be tilted and the liquor drawn at the spout.

Salt Under City of Moscow
Brine with a density of salt five times that of the Black sea has been discovered under the city of Moscow.

Texas farmers are terracing about 2,000,000 acres a year to halt erosion.

War Heroism Brings Fortune to Mechanic

Sankey Is Resigned To Fate, Lawyer Says

Bellefonte, Ont., Feb. 7 (AP)—A large legacy—reported to be \$250,000—awaits Master Mechanic William Minz today because he saved the life of a Scottish officer during the World War.

The story of Minz's fortune was brought here by Provincial Constable Price Morris of Bancroft. He could not confirm the amount of the legacy, but said the mechanic would leave for Edinburgh, Scotland, to receive it in the spring.

The constable said that Minz, who lives at Montague Valley, 26 miles north of here, rescued the Scottish officer during action at Cambrai on the Somme.

Society Notes

Bridal Shower.
Walker Valley, Feb. 7.—A bridal shower was given Mrs. Henry Mari on Saturday night. A large crowd was present. The bride received a number of beautiful and useful gifts. Dancing was enjoyed. Refreshments were served. Decorations were yellow and white.

Thompson-Budget.
Mr. and Mrs. Henry C. Budgett of 179 Elmendorf street announce the marriage of their daughter, Gladys, to Frank W. Thompson, Jr., son of Mr. and Mrs. Frank W. Thompson, of 266 West Chestnut street, on Monday, February 5, at Trinity Methodist Church, Newburgh. The Rev. Dr. Thompson, pastor of the church, officiated.

Birthday Surprise.
Nettacaughts, Feb. 7.—The Willing Workers gave Mrs. Ella Wood a birthday surprise supper at Mettacaughts hall Saturday evening, February 3, in honor of her 67th birthday. There were 94 guests present including Mrs. Wood's children and their families. Beautiful birthday cakes were prepared by Mrs. Reller Wood and Mrs. Edsel Osterhout.

Lowell Club.
The Lowell Club met on Tuesday afternoon at the home of Mrs. Brigham. A very interesting paper on "Daniel Chester French" was given by Mrs. Basten, followed by an informing sketch on "Burne Jones" given by Mrs. Murphy. There will be no meeting next Tuesday but on Saturday, February 17, a social afternoon will be held at the studio of Mr. and Mrs. Vidas on the second floor of 48 Main street, at 3 o'clock.

Birthday Surprise.
Freston Coy was very pleasantly surprised Thursday evening when 15 of his friends and relatives gathered at his home to help him celebrate his birthday. In the early evening pinocle and dominoes were enjoyed, followed by refreshments. Those present were Mr. and Mrs. Eugene Paltridge, Mr. and Mrs. Fred Eckert, Floyd Eckert of Ardona, Mr. and Mrs. Walter Rhodes, Mr. and Mrs. Fred Fowler, Mr. and Mrs. William York, and Mr. and Mrs. Freston Coy and family of Clintonville.

Hostess to Friends.
Shokan, Feb. 6.—Saturday night Verna Giles was hostess to a number of her former high school friends. The evening was spent in playing games, singing and entertainment consisting of piano and cornet music. Refreshments were served at 11:30. Among those present were Evelyn Davis of Lyonsville, Joseph Burger of Mettacaughts, William Mallory, Elizabeth Mallory and Ethel Ford of Phenicia, Barbara Tueling, William Tueling, Irving Weeks, Margaret Windrum and Mary Elliott of Shokan.

Surprise Shower.
Mrs. John Naccarato of the Sawkill Road was tendered a surprise shower Saturday evening, February 3. A delicious buffet lunch was served. Mrs. John Naccarato received many beautiful gifts. Those present were Mrs. A. Silkwaki, Mr. and Mrs. M. Klonowski, Mr. and Mrs. P. Naccarato, Mr. and Mrs. K. Van Valkenburgh and daughter, Joan, Mr. and Mrs. B. Kaminaki, Mr. and Mrs. E. J. Campbell, Mr. and Mrs. H. Albright and son, Henry, Mr. and Mrs. C. Sottile, Mr. and Mrs. J. Sottile and children, Miss L. Naccarato, Tony Natoli, P. Cicco and Mr. and Mrs. John Naccarato and children.

Waters of Nile in Check.
Even the Pharaohs realized the necessity of keeping the waters of the Nile in check, and in their age dikes and embankments were constructed. Irrigation and regulation of the water supply were one of the main problems of government. The basin system of irrigation, which was the first method used, arose directly from the annual flooding of the country, and is still practiced over about a quarter of the cultivated area of Egypt, particularly Upper Egypt. According to this system, the land is divided into compartments by banks, and these compartments or basins are filled by canals which take off below the level of the flood. The water remains on the land for six or eight weeks, and is then run back through escape channels to the river which, in the meantime, has fallen. As soon as the water has run off the crops are sown, and the land receives no more water until the next year. Under this system only one crop is obtained annually.

Mozart's Useful Nose.
Mozart had, according to all accounts, an exceedingly well-developed nasal protuberance, and used it to advantage in a challenge to Haydn, so the story goes. Mozart was Haydn's pupil, and Haydn challenged him to produce a composition of his own which he (Haydn) would not play at sight, and Mozart could. Mozart wrote a little piece, and Haydn sat down to play. Presently he came to a passage which required the hands to be stretched out to the extreme top and bottom keys of the instrument, while there was a note to be played in the center. He was unable to play it, but Mozart sat down, and on reaching the passage stretched out his hands, bent forward, and struck the middle note with his nose.

Migrations of Animals.
Migrations of huge herds of wild animals have been a puzzle to naturalists. Why certain species move on seasonally only to return again to familiar territory, why other species dig in and stay through good and bad weather, are questions still to be adequately answered. Authorities at the Museum of Natural History say that certain well-known groups of animals may always be counted on to migrate with changing seasons. The caribou, elk, certain bats, the whale, are among the many that migrate, and also the muskrat and the hare, though the wolf and fox remain in one locality unless starved out.

Evidently people don't care much what our money bags are, as long as it's yellow, heavy, malleable, ductile, and non-corrosive metal.

A. S. (Mike) Monahan, 31, is the youngest president ever chosen for the Oklahoma City Retirees' Association.

The regular meeting of Rip Van Winkle Triangle, Daughters of the Eastern Star, will be held at 229 Wall street Thursday evening at 8 o'clock.

Atherton's Rebekah Lodge No. 357, will hold its regular meeting in its rooms on Henry street Thursday evening, February 8, and will also have a rehearsal of the degree team after the meeting.

The regular meeting of Clifton Chapter No. 445, O. E. S. will be held at Masonic Hall, Wall street, Friday evening. Regular business will be transacted and one member will be received by affiliation. All Stars and Master Masons are invited to attend.

About the Folks
Miss Charlotte Schober of 105 Downs street left Kingston Tuesday to enter the training school for nurses at Vassar Hospital, Poughkeepsie.

Mr. and Mrs. Frank McSpirt of 467 Washington avenue are receiving congratulations over the birth of a daughter at the Beneficent Hospital, Tuesday night. Dr. O'Connor was the attending physician.

THE JOHNSONS
News of interest to members of Pastoral Societies.

Camp 24, P. O. of A., will meet tonight in Mechanics' Hall, 14 Henry street.

The regular meeting of Rip Van Winkle Triangle, Daughters of the Eastern Star, will be held at 229 Wall street Thursday evening at 8 o'clock.

Atherton's Rebekah Lodge No. 357, will hold its regular meeting in its rooms on Henry street Thursday evening, February 8, and will also have a rehearsal of the degree team after the meeting.

The regular meeting of Clifton Chapter No. 445, O. E. S. will be held at Masonic Hall, Wall street, Friday evening. Regular business will be transacted and one member will be received by affiliation. All Stars and Master Masons are invited to attend.

Z. N. P. Basketeers Lost To Poughkeepsie, 40-41

In one of the most lustrous basketball games at Wakefield Hall last night, the Z. N. P. Basketeers lost to the Poughkeepsie team, 40-41. The game was a close one, with the Poughkeepsie team leading for most of the night. The Z. N. P. team was unable to score in the first half, but they managed to tie the game at 20-20 at the end of the first half. In the second half, the Poughkeepsie team scored 21 points, while the Z. N. P. team scored 21 points.

Most of the scoring for the Poughkeepsie team was done by Ed. Bock, who scored 17 points. The Z. N. P. team was led by Dick Whiston, who scored 17 points. The game was a close one, with the Poughkeepsie team leading for most of the night. The Z. N. P. team was unable to score in the first half, but they managed to tie the game at 20-20 at the end of the first half. In the second half, the Poughkeepsie team scored 21 points, while the Z. N. P. team scored 21 points.

The scores: Z. N. P. 40, Poughkeepsie 41. The game was a close one, with the Poughkeepsie team leading for most of the night. The Z. N. P. team was unable to score in the first half, but they managed to tie the game at 20-20 at the end of the first half. In the second half, the Poughkeepsie team scored 21 points, while the Z. N. P. team scored 21 points.

Score at end of first half, Z. N. P. 26, P.C.C. 19. Fouls committed, Z. N. P. 21, P.C.C. 22. Referee, Chippin.

Z. N. P. Basketeers: Babiarz, F.G. 1, F.P. 1, T.P. 1; Kienrich, F.G. 1, F.P. 1, T.P. 1; J. Quest, F.G. 1, F.P. 1, T.P. 1; A. Musiakiewicz, F.G. 1, F.P. 1, T.P. 1; E. Musiakiewicz, F.G. 1, F.P. 1, T.P. 1; D. Joyce, F.G. 1, F.P. 1, T.P. 1.

Holy Cross: A. Buddington, F.G. 1, F.P. 1, T.P. 1; E. Partland, F.G. 1, F.P. 1, T.P. 1; M. Buddington, F.G. 1, F.P. 1, T.P. 1; V. Hales, F.G. 1, F.P. 1, T.P. 1; G. Hornbeck, F.G. 1, F.P. 1, T.P. 1; Phinney, F.G. 1, F.P. 1, T.P. 1.

Score at end of first half, Z. N. P. 26, P.C.C. 19. Fouls committed, Z. N. P. 21, P.C.C. 22. Referee, Chippin.

Score at end of first half, P. C. C. 18; Z. N. P. 19. Fouls committed, P. C. C. 6; Z. N. P. 13. Referee, Streeter.

K.H.S. Jayvees Against Comforter Missions. The regular Wednesday basketball games at Comforter Hall will go on tonight featuring the Comforter Missions against the Kingston High School Jayvees, one of the strongest group of opponents. Manager Herb Myers could find for the churchmen.

Starting time of the game is 8 o'clock, and indications are that there will be action every minute from the beginning to the final whistle. There will be two prelims, the Comforter Girls meeting the Holy Cross Girls at 8 o'clock and the Comforter Aces stacking up against another strong junior team at 7.

So far the Missions have defeated some very noteworthy clubs—the Ellenville Zedies, twice; Poughkeepsie Reformed Church, twice; Hill, C. C. C. Seconds, Connelly Aces, White Eagles and Saugerties Five. Clubs that defeated the Missions were Port Ewen Sioux, Poughkeepsie Majestics, Seventh Ward Democrats and Hunter Big Five.

Leading scorers on the Missions: Name, G. F.G., F.P., T.P. Stumpf, 16, 59, 12, 123; Purvis, 16, 47, 17, 121; Quick, 11, 11, 2, 22; Follett, 16, 19, 19, 57; Streeter, 14, 21, 12, 71; Eichner, 14, 8, 4, 20; Barth, 16, 12, 9, 33.

The regular Thursday games, featuring six girls' basketball teams, will go on Thursday night at the Y. W. C. A. as follows: Winkys vs. Fallers at 7:15 o'clock; Varsity vs. Hercules at 8:15 o'clock; Rosendale vs. Morans at 8:15 o'clock. Dancing will follow the contests, starting at 10:15.

MAUREEN ORCUTT AND HELEN WICKS CLASH. Miami, Fla., Feb. 7 (AP).—Helen Hicks, of New York, whose brilliant play has been a feature of the Baltimore women's invitation golf tournament, encountered tough opposition today in the person of Maureen Orcutt, New Jersey star.

Guy's Grip —By Pap

Want Racing Commission, Would Make Betting Legal

By GEORGE R. LOVEYS (Associated Press Staff Writer) Albany, N. Y., Feb. 7 (AP).—Transfer of control of New York state racing from the Jockey Club, governing body of the sport for nearly a half century, to a state commission is to be proposed soon in the Legislature, it was learned today.

The bill will be introduced by Senator John J. Dunnigan, majority leader in the upper house, within a week or two.

While Senator Dunnigan refused to comment, it was believed by political observers that the proposal will call for abolishment of the present commission of three members appointed by the secretary of state and create an entirely new set-up similar to the State Athletic Commission which controls boxing and wrestling.

Duties of the present racing body are rather limited, confined chiefly to issuing licenses to associations conducting the sport.

Prospects Bright. Meanwhile, bills introduced in the Legislature to legalize betting at race tracks were in committee, marking time pending the passage of major measures needing immediate attention.

Allowed to die in committee last year, the bill to permit open betting and impose an eight per cent tax on the gross box office receipts at the tracks was said to be favored highly by many legislators with fine prospects of its passage this year. Governor Lehman has made it known that he is favorable to the measure.

The sponsors, Assemblyman William Breitenbach and Senator James J. Crawford, both Brooklyn Democrats, today expressed confidence of its approval.

Relief for Tracks. While passage of this measure would give the state tracks immediate relief, without which turf leaders say the sport is doomed, another bill is before both houses proposing an amendment to the constitution to permit pari-mutuel betting.

If this proposal introduced by Senator George Blumberg, Brooklyn Republican, is approved by both houses, it must be submitted to the public at the 1935 general election before it becomes law in 1936.

Proponents of the pari-mutuel bill are studying the Canadian system which gives a portion of the receipts to charitable institutions. This, if done in New York state, would relieve the state of considerable charitable work, it is pointed out.

Some very noteworthy clubs—the Ellenville Zedies, twice; Poughkeepsie Reformed Church, twice; Hill, C. C. C. Seconds, Connelly Aces, White Eagles and Saugerties Five. Clubs that defeated the Missions were Port Ewen Sioux, Poughkeepsie Majestics, Seventh Ward Democrats and Hunter Big Five.

Purchase of Vance By the Reds Only Major Player Deal

By HERBERT W. BARKER (Associated Press Sports Writer) New York, Feb. 7 (AP).—National League magazine shipped out of town today with one major player deal to report.

Reports of supposed trades of startling proportions prevalent as the club owners went into their mid-winter schedule meetings turned out to be rumors and nothing more. Manager Larry MacPhail, store was, however, the purchase of Arthur (Daddy) Vance, veteran right hander, from the St. Louis Cardinals for the waiver price of \$1,500.

Vance's sale would have been smashing news a few years back when the "Dad" was tossing his fireball past the batsmen and winning the league's strikeout championship year after year as a member of the Brooklyn Dodgers. Now it's hardly an item for most of the sport has left his mark on the game which earned \$25,000 for him in one season with the Dodgers. The Reds are hopeful he will stage a comeback under new surroundings.

Frisk for Publicity. The league, in its sessions, adopted the schedule, cutting 10,000 miles off the season's traveling by all clubs. Reorganized its publicity bureau with Ford Frick of New York as manager; named Bill Stewart a full-time umpire to succeed Ted McGraw, resigned; favored rotating the annual all-star game between American and National League parks to this year's contest, in New York, to be played in the Polo Grounds; left the broadcasting question up to each club; declined to lift restrictions limiting the number of season passes each club may issue to 500; and was understood to have adopted the numbering system to make players more easily identified by the fans, although no formal action was taken.

"Red Riding Hood" First Out With Other Stories. It is said that the story of Red Riding Hood is a solar myth, following the path of the red sun from its home in the east, across the fields and cloudy woods of the sky, to the dark cottage of the west, where it is devoured by the wolf of night, says Tit-Bits Magazine.

However that may be, nobody seems to have known much of the tale until it appeared in a book having the strange title: "Histoires on Contes du temps passe, are des Morales, et bearing on the back of the cover another title: "Contes de ma mere L'ore," which may be translated: "Stories or fables of olden times, with a moral," and "Stories of Mother Goose."

The book was published in the time of Louis XIV, and was written by one of his most distinguished subjects, an old member of the French academy, who thought little of it. In this book, besides "Little Red Riding Hood," appeared such well-known stories as "Cinderella," "Bluebeard," "Puss-in-Boots," "Tom Thumb," and "The Sleeping Beauty."

The author's name was Charles Perrault, but the book was published under the name of his ten-year-old son, and it may be that some old village or nurse had actually related these stories to the child, and that they had been taken down by the father in their original simple form and language. No one will ever know how much was original and how much was folk lore.

Rolling by Ear. The origin of the word "Reader," as applied to old-time cigar factories (and in some American cities the practice is still observed), dates back to a curious custom. A man ascended a raised platform in the shop and read aloud to the tobacco-leaf rollers the news of the day. The reason for doing this was odd. Most of the cigar makers were Puerto Ricans and Cubans, well known for their gregarious method of speaking, especially when excited. Now, the best cigars require close attention in the rolling process. The bosses knew this, and also the workers' propensity for talking. They therefore conceived the idea of having news read to the men to keep them from talking—and thus take their hands away from the business of making cigars. It is said that Samuel Gompers was once a reader in a New York cigar factory.—Washington Post

Where Ebony Grows. Ebony is the wood of a number of related trees, found in nearly all parts of the tropical world. Its northernmost range is northern Bengal, in India, and in localities of similar latitude and climate. The best grades are from a certain species native to southern India and Ceylon. Another much appreciated variety is from Madagascar. Other places where ebony grows are in Africa, especially Angola; in the East Indies, and the power Jamaica variety in the West Indies.

Entered for Futurity Races. The name of the race in which horses are entered before they are hatched is "Futurity race." The Gam is entered before the foal is dropped, or the foal is entered when a few months old. The race is not run until the foals are two-year olds. The three important futurities in the East of States are: The Futurity Westchester Racing association; the Futurity, Falmouth, Me.; the Breeders' Futurity, Lexington, Ky.

HE WASN'T PLEASED

"But, sir," said the junior clerk in charge of the room, "I don't think there's anything unreasonable in my asking for an increase in salary. Why, don't you remember you promised me a raise after I'd been here a year?"

"I know that," said the manager. "But I made it on condition that you gave me every satisfaction."

"And haven't I given you every satisfaction?" asked the unhappy junior.

"Not," said the other, "do you think you're giving me satisfaction by asking for an increase in salary?"

The Betrothal. A young chap had proposed to a very beautiful girl. The girl, blushing and weeping a little for sheer joy, had accepted him. He tended her in his arms, pressed his lips to hers and whispered:

He-Dearest, is this the first time you have ever loved?

She (sighing)—Yes, but it's so nice that I hope it won't be the last.

Well, I've got my winter's supply of coal in anyhow.

"Is it paid for?"

"Say, why do you always insist on bringing up something disagreeable when a fellow is trying to be optimistic?"

Good Enough for Him. "Some women are lacking in a sense of proportion, aren't they?"

"What's the matter now?"

"My wife went to have her hair waved last week, and it cost her \$8."

"But that doesn't prove she is lacking in a sense of proportion, does it?"

"Perhaps not, but when she came back she told me she'd discovered a place where I could get my hair cut for 40 cents."

EASY SLIPPING. "There has been a good deal of mud throwing in the campaign."

"That may result in its becoming a landslide."

One on the Editor. Editor—But these jokes aren't funny.

Contributor—I know that, but I've just been reading over some back copies of your magazine, and I thought that you might think they were.

Repairs Needed. Mrs. McStinger—Could you repair these shoes again?

Cobbler—Yes, if you have new soles and new uppers they will be all right. The lace holes are not bad!

Arithmetic. "A woman of thirty usually looks older than a man of forty. Why is that?"

"A woman of thirty usually is older than forty."

As Advertised. The Customer—See here! This pound package is four ounces short!

The Merchant—That's right. Didn't you notice my advertisement—"This Week, 5 Per Cent Off for Cash?"

Stands Corrected. James—Papa, I ain't got no butter.

Papa—John, correct your brother. John (looking over into James' plate)—Yes, you is.

Stadium for 1936 Olympic Games. The Olympic Games of 1936, to be held in Berlin, are to be erected. Work on them is to begin in a month or two, the plan having been approved by Chancellor Hitler.

Fourteen Islands Form Cape Verde Archipelago

Fourteen islands, ten of which are inhabited, make up the Cape Verde archipelago. They lie about 200 miles west of Dakar, the westmost point of the African continent. All are volcanic in origin.

The islands are swept around by strong trade winds, and both the slopes of their lofty, extinct volcanoes and the sea shore appear black and arid from the rail of an approaching steamer. Like Greenland, Cape Verde (meaning Green Cape) is a misnomer.

The name is derived from green grass which grows in the valleys of the larger islands, made fertile by earth washed down from the mountains, are the only spots which might give the island group a right to its appellation.

If the 14 islands could be on a state of Rhode Island, only a rugged edge would extend over the borders of the distinctive New England state. St. Thiago, largest of the Cape Verde islands, is a misnomer. It is so tiny that it is measured by square yards rather than square miles.

The archipelago forms a province of Portugal, and its governor general is appointed by the Portuguese government. He resides at Porto Prata, on St. Thiago, a city of about 350 inhabitants, of whom most are negro.

Chicago Daily News.

Asbestos Was Found When Needed by the County. Just when civilized folks began to need it, asbestos was found, by a writer in the Washington Star.

In the very nick of time, when began to melt metals in fiery furnaces and to use red-hot machinery in the sands of factories, we learned of substance which could be obtained from ordinary rock which would protect us from heat because it neither burns nor melts.

Asbestos is used practically everywhere today. In our homes, we have it in our kitchens in the shape of handles, and it shields the pipes of our furnaces. Sometimes it is built into the very walls of our houses, to make them fireproof.

When the earth's crust first hardened into rock, millions and millions of years ago, some of the veins in the rock were filled with a stuff called serpentine. It is this serpentine which is the mother of asbestos.

Mined from rock in Georgia and Canada, serpentine is ground up into soft white pulp stuff which is light and quite tough. The pulp is broken up, cleaned and carded into wool for weaving into cloth. Ordinarily, fine wires are woven into the cloth with the threads of asbestos, which, being rock crystal, would otherwise be too brittle to be durable.

Ant and Man. Our sense of superiority is no more partly due to our worship of Aristotle himself would not be cut much ice had he been only the of an ant. Further, Forum and of ants says, we regard insects very low forms of life, whereas actually, they are as far advanced in the evolutionary scale as ourselves. That is, we are the best developed of those animals that put their money on a vertebral skeleton, while the ant is one of the most highly-developed of the animals that harked on a segment body covered with chitin. But we are an equal distance along the road from our original common ancestor and if a stable and masterful relationship with the environment is a gauge of progress there are many ways in which the ant has made a better use of its time than man.

Holiest Monks' Retreat. Inaccessible retreats once inhabited by "the holiest monks" have been unearthed in the desert sand some 10 miles from the Wadi Natrun, Egypt. The traveler, who carried out the excavations, claims to have located the site of the hitherto undiscovered monks lived so far apart they could neither see nor hear one another. The only occasions on which they met were on Saturdays and Sundays, when they assembled at the church—a central building which this authority claims to have identified about ten miles from the northwest corner of the Wadi Natrun.
